## **Cattle rules and regulation:**

The Surrey Agricultural Society is pleased to announce that the 2020 Surrey County Show will be BVD free. BVD free status ensures that this devastating disease is not spread between cattle attending the Show and will stop the disease impacting on their health and future fertility.

BVD free means that all cattle (and calves) attending the Show must come from a herd that is fully accredited as BVD free or individually tested free of virus (antigen) whether or not they have been vaccinated, in accordance with CHECS rules ([www.checs.co.uk](http://www.checs.co.uk)).

Westpoint Veterinary Services ([www.westpointfarmvets.co.uk](http://www.westpointfarmvets.co.uk)), through their lab Biobest, will cover the first year of the annual membership costs of any herd who was not currently entered into a cattle health scheme and wanting to enter into a health scheme. In addition, they have very kindly offered subsidized PRMT for exhibitors attending the Surrey County Show. If you would like more information, please call Westpoint Veterinary Services on 01306 628086.

1. TB Pre-Movement Testing will be necessary for cattle coming to the Show. Please check the latest information on the DEFRA web site. A copy of any clear pre-movement TB test certificate should accompany each animal to the Show and will be checked by a steward.
2. All movements of cattle to and from the show must be recorded separately by the exhibitor in the cattle passport and be reported to the BCMS within 3 days. The Show will also record movements on and off the showground. All cattle should be accompanied by their passports or a certificate of registration. A steward will check all cattle documentation at the Show.
3. Cattle must originate from premises which are not under DEFRA restrictions for tuberculosis or brucellosis. They must have been the bona fide property of the exhibitor on his holding at least two calendar months prior to the show.
4. Animals which calve, or show evidence of calving, whilst at the showground must be placed in the approved isolation accommodation pending their removal from the showground.

Where an animal calves at full term and the owner arranges for a blood sample and a vaginal swab to be taken and examined at an approved laboratory, and the

Rose Bengal Plate Test and microscopical examination of a smear made from the vaginal swab are negative, the animal may return to the show lines at the discretion of the Show Secretary. Where an animal calves prematurely, or aborts, the onsite veterinary surgeon must be informed immediately. The appropriate precautions and procedures will be followed before the animal(s) can leave the showground.

5. Bulls over 10 months of age should be rung. All bull handlers must be aged 18 years and over and there must be two handlers for every bull shown.
6. Cattle must be tied up, and exhibitors shall provide their own ties.
7. Any artificial contrivance or device found on or proved to have been used on an animal at any time whilst that animal is in the Showground, either for preventing the flow of milk or for any other improper purpose will disqualify that animal from the competition and the instigator or the owner of the said animal may be prohibited from entering Stock in any future competition as the Society may see fit. The Society reserves the right to have all animals inspected by the Hon. Veterinary Officers, either prior to, during, or after judging.
8. Only the first prize winner from each class will be eligible to compete for the beef or dairy championship. The reserve of the breed of the chosen champion will be eligible to compete for the reserve beef or dairy championship.
9. Cattle may automatically transfer from In-calf to In-milk classes and vice versa.
10. No Warbled cattle will be allowed into the show without a completed declaration of treatment (form C) and this form can be obtained from the Local Authority or Defra.
11. Cattle belonging to herds with CheCS-accredited must ensure that they and their cattle comply with the Scheme rules concerning attendance at shows.
12. Substitutions: in any class, exhibitors must provide full details of

animals to be exhibited by the closing date of entries into the Show Guide and the Society reserves the right to refuse acceptance of any entry where the details given are incomplete. Substitution of animals in the cattle section will be allowed after the closing date at the discretion of the Show Office. The only exception to this is in the case of dairy classes, where changes may be made if last minute calving has/has not occurred. In this case, the Breed Steward must be informed prior to judging commences.

13. Transportation details should be included on your entry form. If this is not possible please furnish these details to your Steward on arrival for our records.
14. Regarding the milking parlour, The Milk and Dairies (General) Regulations must be observed at all times, especially:
  - a) No smoking during milking, b) Overalls must be worn and
  - c) Cleansing equipment after use. The Society will pay for milk produced in the milking parlour at the price ruling at the time. The parlour is open 24 hours, but exhibitors using it when the steward is absent must clean the equipment afterwards.

### **Cattle young handlers**

1. Winter Stock festival Young Stock Person of the Year finals will take place on Saturday 28th November 2020.
