## The Process at Celtic Interiors

A detailed pre design consultation is Carried out with each of our clients. This ensures that we can get a real feeling for what the client is looking for in their home, to suit their lifestyle and needs. This “wish-list” stage lets the customers see first hand how Celtic Interiors are going to look after them and be with them every step of the way.

The next stage is the Design Presentation. The client is invited back into our showroom to view the proposed design for their kitchen. A full detailed design is discussed and the client can really get a sense of what is available to them. We present our ideas using the very latest computer technology and only when they are completely happy with the proposals will we move on to the next stage and finalise all finishes, colours etc.

A full on site measure is carried out on site By our qualified team and then the Preparation, manufacturing and Ordering takes place.

Our highly skilled carpenters and fitters take over at this stage and make your dream kitchen into a reality.

As you can see there is a whole team of People behind the brand at Celtic Interiors that make your experience with Us an informative enjoyable experience.
