

Hello and
welcome
to

Oysta

SAFER
INDEPENDENCE

Oysta gives me
freedom to get
out of the house
SAFELY :)

Discover how
social care
providers are
benefitting
from our mobile
telecare services

What is Oysta?

Easy-to-use mobile telecare service helping people to stay independent for longer

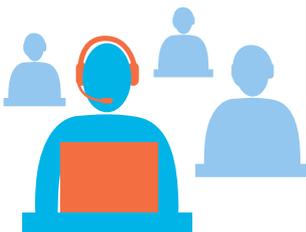

Works out of the box

Gives freedom & confidence to user & carer

Customisable package for each user

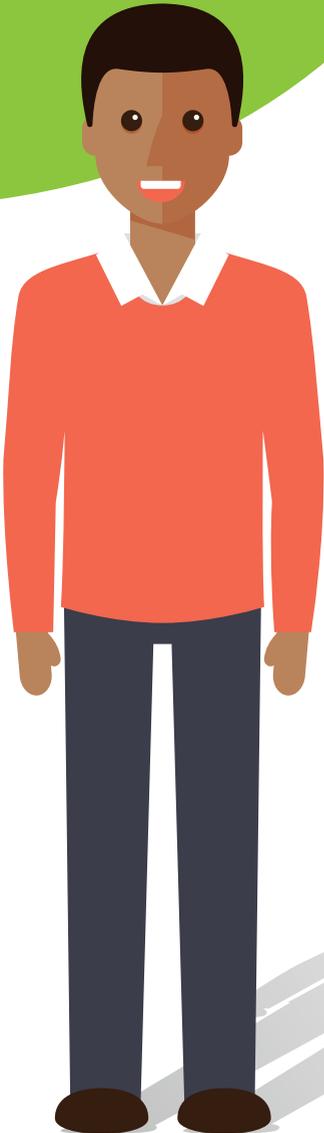

24/7 response to alerts if fall, distressed or wandering

Peter

Peter's parents want him to stand on his own feet as soon as possible despite the fact he finds some aspects of life difficult (due to his mild learning disability - Down Syndrome).

When presented with his Oysta Peter named it "*Funking Supa-Dupa*".

He understood exactly what the device could do and now it is the key to him being able to live a normal life.

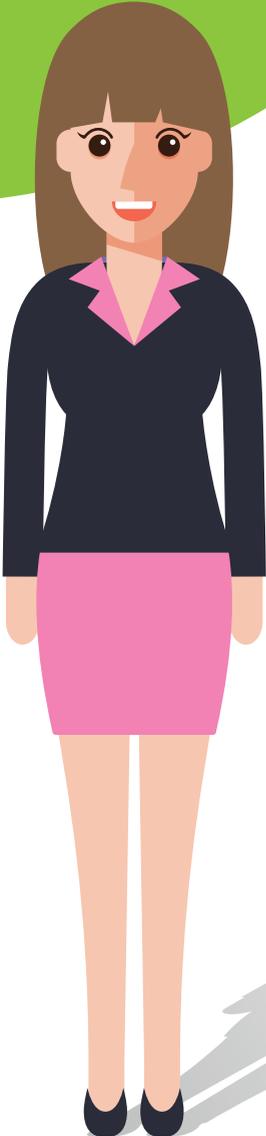

Funking Supa-Dupa!

Jane

Total savings
£400 a week

Jane has complex health needs and a mild learning disability.

The Oysta service is used to enhance Jane's confidence when she's out and about and also reduce support to just one carer.

Savings calculation

- » Waking night reduced to Sleep-in
- » One carer required instead of two

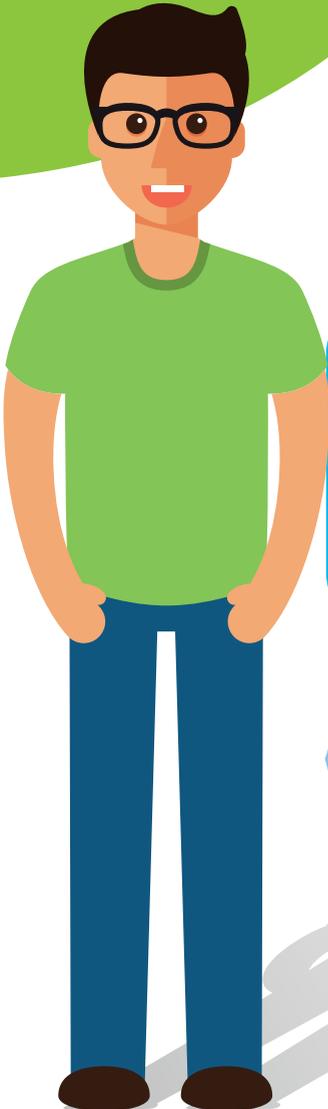

The Oysta has proved invaluable. Just knowing it is around her neck is a real safeguard for us.

Josh

Total savings
£3,000 a week

Josh has severe learning disabilities and challenging behaviour. His aggression is affecting the whole family and his parents are on the brink of a breakdown.

Oysta was introduced to raise an alarm as soon as it's needed.

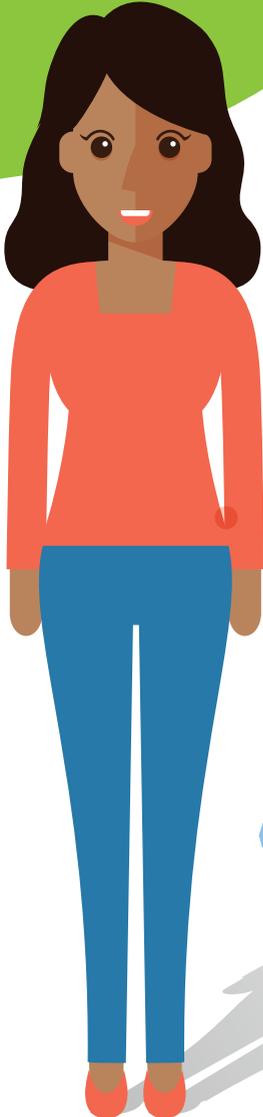

Savings calculation

- » Access to wider pool of support
- » Carer breakdown prevented
- » Residential care delayed/avoided

“ We would like to thank you once again for all your help and continued support. ”

Sarah

Total savings
£2,500 a week

Sarah has severe learning disabilities (autism and complex health needs) and challenging behaviour. Carer breakdown was always imminent. On occasions the Police had to intervene.

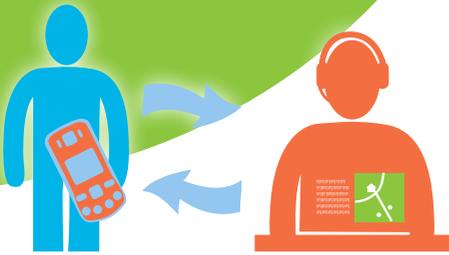

Oysta has helped the family to manage difficult situations, allowing a wider pool of carers and providers to be involved in supporting Sarah.

Savings calculation

- » One carer required instead of two
- » Residential care delayed/avoided

“ I didn't know this system existed. It gives me confidence to go out with my family. ”

How will Oysta help?

Simple two-way voice & auto answer allows immediate assessment of the user's situation.

Lower cost of integrated care

- » False alarm prompts reduce control centre costs
- » Direct communication reduces unnecessary call-outs
- » Safer patient discharge & less residential care
- » Fewer emergency call-outs & fewer re-admissions

More effective outcomes

- » Builds confidence & independence - indoors & outdoors
- » Encourages social interaction & helps avoid loneliness.
- » Connects & bonds families with their professional carers
- » Improves quality of life & physical activity.

Summary

LOW COST: Peace of mind for under £4 a week for each user.

MEASURED SAVINGS: Typically £000s a week for each user.

IT'S MOBILE: Fostering safer independence everywhere.

PROVEN: Protects over 10,000 users worldwide.

CONNECTING CARE: Families with professional carers.
