# BePulp Hot2Go Range

Sustainable Solutions

PUL42108F1000N

The BePulp Hot2Go range provides the best of both worlds, maximum convenience and extra quality for hot on-the-go eating.

PUL42108F1000N

Our pulp products can be composted in conformity with regulation 13 432.

# Market Trends

- Most consumers reheat their takeout meal in the **original food container**.
- Consumer's satisfaction is all about choice, good, quick and HOT. Hot meal and snack offer is booming.
- A hot meal gives a better feeling of having a genuine lunch break.
- Increasing demand for **sustainable packaging** solutions.
- Emphasise the **sustainable image** of quick service restaurant.
- Back to **authentic** or **close to nature** products.

# Added Value

- The **best lid fit** in the market.
- Designed to grab and eat on-the-go.
- Excellent **stackability** and **denesting** features .
- Leak resistance.
- **No taste transfer**, no reduction in food quality
- **Fully Microwaveable (base & lid)**.
- The bases are **certified compostable**.
- Base: **bagasse** (sugar cane residue), natural, abundant and renewable resource.
- Lid: PP.

# Easy to Grab & Go

# Fully Microwaveable

Allows the steam to release without cooling down the food and stops the lid bursting open.

Avoids moisture in order to keep the products perfectly visible.
