

OptiWet Turf

Synergistic wetting agent and microbial nutriment

OptiWet Turf encourage rapid water penetration. Its surfactant action is complimented by increased microbial activity in the rootzone stimulating decomposition of organic debris and the formation of beneficial humus and assisting in nutrient uptake for a healthier turf sward.

How does it work?

- **OptiWet Turf** improves soil structure by flocculating clay particles in heavy soils and increasing moisture retention in sand based rootzones.
- **OptiWet Turf** contains Yucca Schidigra, rich in steroid saponins with natural surfactant properties for rapid penetration into the soil and effective uptake of applied nutrients.
- By increasing microbial activity within the rootzone **OptiWet Turf** promotes the development of a greater root mass enhancing water and nutrient availability.

Why use OptiWet Turf?

- 100% natural
- Dual action wetting agent and microbial stimulant
- Improves water penetration and efficiency
- Improves soil structure
- Creates a balanced, more favourable rhizosphere
- Improves nutrient uptake for plant health

Where/when

- Suitable for use on all types of sports and amenity turfgrass
- Suitable for all year round application
- To increase performance as a microbial stimulant use with **BIOS® Turf Tonic**
- Apply in conjunction with aeration to assist in dispersal into the root zone

Application Rates & Timings

Apply as a root drench.

Apply @ 6 -12 l/ha. Repeat monthly or as required

Dilution: Recommended for application at water rates of 300-500 l/ha

Method: Always use a fully calibrated sprayer at the recommended dosage. If foaming occurs add 5ml anti-foam in a fine spray

Pack Size: 10L

YOUR LOCAL DISTRIBUTOR

This product is physically compatible with a wide range of tank-mix partners. Check compatibility prior to adding to the spray tank. Consult your local advisor or Soil Harmony for specific recommendations. Efficacy may be effected by plant health, growth stage and weather conditions. Soil Harmony accepts no liability for damage to treated turf.
