PRESS RELEASE
FOR IMMEDIATE RELEASE

The Accordion Harness™ features a non-skid surface and a backstrap.

*Neotech's **ORIGINAL ACCORDION HARNESS** offers comfort and convenience!*

Neotech's **ORIGINAL ACCORDION HARNESS** is comprised of two neoprene straps offering our patented internal control-stretch system for enhanced comfort and mobility. This unique weight reduction system effectively disperses the weight and absorbs the shock of your movements. The straps attach easily to the top of the accordion using ¾" webbing and at the bottom with convenient and secure loop connectors. Neotech's accordion harness series transform the accordion into a joy to play, not a burden!

The **ORIGINAL ACCORDION HARNESS** is ideal for small to medium sized accordions. The shoulder pads have a non-skid surface and measure approximately 16½" long and taper in width from 3 to 2 inches. A unique adjustable back strap is also included in the **ORIGINAL ACCORDION HARNESS**. It quickly joins the two straps together with a quick disconnect for ease of use and helps to maintain the proper playing position. The **ORIGINAL ACCORDION HARNESS** is made 100% in the USA.

Neotech continues to innovate quality products to meet the ever-changing needs of the avid musician. We proudly make our products in the USA using top-quality materials as we feel you deserve the very best! For more information about our products, please call 800-251-7815, e-mail info@neotechstraps.com or visit us online at www.neotechstraps.com or www.optechusa.com.
