

Probable Severity	Likelihood of Harm	Risk Rating
Trivial injury = 1	Very unlikely = 1	1 to 6 = LOW
Minor injury = 2	Unlikely = 2	7 to 14 = MEDIUM
Moderate injury = 3	Possible = 3	
Serious injury = 4	Likely = 4	15 to 36 = HIGH
Major Injury = 5	Very likely = 5	

## Archery Risk Assessment

2019 - 2020

All visitors having an instructed archery session receive a written statement on what to expect during their session and the rules of safe archery prior to starting.

Archers using their own equipment must register before using the archery butts

CCTV coverage of the archery range enables monitoring of the range.

What are the hazards and dangers?	The risk and who to	Severity	Likelihood		Risk	Control measures	Other precaution	Total risk rating
			Ratings					
Catching arm with string	Personal injury to user	2	3		6	All visitor using Cluny equipment receive instruction throughout their session. Arm guards are provided	First aider is on site.	Low
Being hit by a ricocheting arrow	Personal injury to user, other range users and spectators	4	1		4	The butts are between 5 and 18 metres from the archers The instructor spaces the visitors out across the targets, dividers are in place to separate archery lanes.	Archery butts are regularly inspected and repaired	Low
Damaged to eye when collecting arrows	Personal injury to user	4	1		4	Instructors coach visitors on how to safely collect arrows. - Approaching the target and withdrawing the arrow from the side.	First aider is on site.	Low
Inappropriate use of the bow resulting in muscular or tissue injury	Personal injury to user	2	1		2	Trained instructors with all archers. Correct sized bow used to match the size and frames of visitors	First aider is on site.	Low

Crossing the firing line	Injury to other users	4	1	4	Archers are not allowed to cross the firing line until all bows are placed on the floor or onto a stand.		Low
Outdoor archery - Walking in the firing area,	Injury to the public	4	1	4	The area is inspected before setting up to ensure there is 50 metre back drop inaccessible to the public. Use of low poundage bows to prevent the arrow travelling 50 metres		Low
