

MOVING STRATFORD FORWARD

**THE VISION
FOR THE ORIGINAL STRATFORD
2020 - 2025**

STRATFORD
ORIGINAL
YOUR BUSINESS IMPROVEMENT DISTRICT

> VISION

This is Stratford. The place where commerce meets culture, community and connectivity. Stratford is in constant evolution shaped by the past and open to the future. It is a place we are passionate about and committed to helping develop and prosper.

> MISSION

Fulfilling the potential of the original Stratford by moving Stratford forward.

> VALUES

Whilst delivering our vision and mission, our actions and responses will be guided by four key values. We pledge that as your BID, we will continue to be;

- > **INCLUSIVE**
- > **OPEN**
- > **DYNAMIC**
- > **INFORMED**

MOVING STRATFORD FORWARD

Stratford has always been a place in constant evolution. It's rich story dates back to the early 1800's when Stratford Station opened marking a key moment for the industrialisation of the area.

With the arrival of the railway, Stratford becomes a thriving market area with numerous theatres, pubs and churches. It is in the early part of 1900s that thanks to the arrival of buses and trams first and then the tube lines, that Stratford becomes a place with great connectivity.

In the 1970s, Stratford establishes itself as a retail destination with first the Boardmans Department Store and then the Stratford Centre. It is however with the London Olympics 2012 that Stratford is finally on the map, shifting the centre of London eastwards.

Set up in 2015 to secure ongoing investment for the town centre, Stratford Original BID has quickly established itself as a crucial stakeholder delivering positive change for the original Stratford with the mission of fulfilling its potential.

In our first 5 years of operation, the BID has grown to become an organisation offering a full programme of services, projects, initiatives and events to its members and to people who work, live and visit the area.

Free training, subsidised recycling, savings on your bills, networking, local offers, seasonal events and then additional cleaning, greening, improved lighting, street art such as murals and colourful crossings and our ambassadors service are some of the successes we have implemented in the first term.

Our vision to fulfil Stratford's potential is about moving Stratford forward. To do this, Stratford Original BID will continue to manage the evolution and will provide an even greater business programme to help your organisation thrive.

If you also agree Stratford is moving forward, make sure you cast your vote in the renewal ballot so that you can continue to play a part on its evolution.

**LET'S MOVE STRATFORD FORWARD
WITH A YES VOTE THIS OCTOBER.**

BIDS EXPLAINED

A Business Improvement District (BID) is a business-led and funded organisation, generally not for profit, established to invest in a defined commercial area. There are a number of benefits that BIDs deliver and these generally include:

- Businesses within the area decide and invest directly in their area
- Businesses are represented and have a single voice over local and national issues
- The levy raised is spent exclusively within in the BID area
- Increased dwell time, footfall and spend
- Reduced business running costs
- Additional marketing, events and promotion
- Involved in infrastructure, air quality and transport issues
- Place shaping and place making activities
- Networking and creating wider networks
- Dealing with the Police, Local Authority and other statutory organisations.

KEY FACTS

- In the UK, the majority of BIDs exist in **town and city centres**, however they are also in industrial, commercial and mixed-use locations. At time of writing there are over **320** BIDs in the country. Including over **60** in London alone.
- The BID mechanism through its legislation provides flexibility and, for this reason, BIDs can vary in shape and size.
- The average BID's size is 300-400 hereditaments, with some of the smallest having fewer than 50 hereditaments and the largest at over 1,000.
- Annual income is typically between £200,000-£600,000 but can be as little as £50,000 per annum and as much as £2 million+.
- National legislation enabling the formation of BIDs was introduced in 2003 in England and Wales (with subsequent regulations published in 2004 and 2005 respectively) and in 2006 in Scotland.
- BIDs were first established in Canada and the US in the 1960s and now exist across the globe, including in South Africa, Germany, Japan, New Zealand and Australia.

We will run regular business networking events to bring local businesses and stakeholders together and work with other business organisations to expand the networks.

INVESTMENT

INVESTING IN STRATFORD

Over the first five years of operations (2015-2020), Stratford Original has generated **£1.34 million** worth of investment through its levy and directly raised an additional **£425,000** of external funding.

This takes into account the **8%** discretionary relief on the levy offered following a decision from the Board. It was introduced in April 2017 in order to mitigate the effects of the 2017 rateable value revaluation. The Board agreed to offer the relief to all

levy payers and it was automatically applied to the bills for the last 3 financial years.

To date, a total of over **£1.76m** has been invested in improving the original Stratford with almost of a third of this investment coming from external sources.

In October 2019, any property with a rateable value of **£12,000** and more is eligible to vote and, if the vote is successful will be liable to pay:

- **0.75%** of the rateable value if based within the Stratford Centre
- **1.50%** of the rateable value anywhere else within the BID area.

Moving forward into the second term, through the levy investment the BID

forecasts to generate approx. **£310,000** annually for a total at least **£1.5m** of direct investment across the period 2020-2025.

With the proven track record of successfully raising external funding, the BID will commit to generate an additional **10%** of funding from external sources including grants, voluntary contributions and sponsorships.

MANAGEMENT

This renewal proposal has been prepared at a time when further funding cuts by statutory organisations are planned.

Stratford Original is run as an efficient, cost effective organisation aiming to delivering value to its levy payers. It is an innovative organisation that can adapt to change and can still deliver value.

The Stratford Original Board will approve in advance an annual budget for the BID for each financial year.

New initiatives may be added to the business plan and others reviewed to respond to circumstances outside of the BID control. These will be decided by the Board at the beginning of each financial year.

The basis of all decisions and the overall aim will remain to fulfilling the potential of the original Stratford by moving Stratford forward.

BUDGET

The Stratford Original budget sets out the anticipated income and expenditure. The projected income is built on a **98%** collection rate based on the average collection rate of the first term. It does not include external funding and the pro bono advice received per annum by the Board Members and other BID Members who volunteer their time. Administration costs including attributable staff costs, rent, rates, utilities and any other standard running costs.

GOVERNANCE

THE BOARD

Stratford Original BID is a company limited by guarantee and is overseen by a Board formed by local business representatives and stakeholders whose responsibility is to make decisions to implement the vision for Stratford and related business plan.

The Board is elected on yearly basis at the Annual General Meeting usually held every November and any local business representative and BID member shall be considered to serve the Board. The composition of the Board aims to reflect the variety of businesses within the BID area so that relevant sectors are represented. The Board nominates a Chair every year. It is formed by:

- Directors with voting powers
- Observers without voting powers

Both Directors and Observers donate their time and expertise voluntarily. The Board is also assisted by Steering Groups for each of the relevant themes who work with the Executive Team to deliver the yearly business plan. These groups are made up of BID members, community representatives, stakeholders and are chaired by a Board Member.

THE ACCOUNTS

The Annual Management Accounts are prepared by an accountancy firm appointed by Stratford Original BID. The annual accounts are approved by the Board and ratified at the Annual General Meeting.

THE AGREEMENTS

Stratford Original BID will inter into a baseline and operating agreement with LB Newham if voted in for a second term. The baseline agreement defines the level of services the business community should expect from the Local Authority and sets out what additional value the BID will deliver.

The operating agreement defines the arrangements between the BID and the Local Authority for the collection and enforcement of the levy. Both agreements are available on the BID website.

BOARD

It has been many years that the wider Stratford has been experiencing change, from the moment the Olympics were announced, Stratford has become the new key metropolitan centre of London.

Since 2015, there has been a lot of physical changes happening in Stratford in terms of new developments but more importantly the public realm improvement works that have transformed the look and feel of the original Stratford.

For the first time in decades, we finally have direct investment in the

town centre coming not only from the public sector but also from our local business community through the BID levy. Improvements that have delivered a brand new environment, which has already enhanced the area.

The work the BID has been doing over the years has already made a difference. Cutting costs on utilities, subsidising recycling, offering free business training and networking are only some of the initiatives we are all benefitting from.

Of course, these go hand in hand with the town centre events, initiatives such

as wayfinding, colourful crossings, creative lighting, greening and murals all projects that are making the original Stratford move forward.

A special mention goes to our ambassadors team who are doing a fantastic job in liaising with local businesses, reporting public realm issues, and working with LB Newham and the local police teams.

Over the past five years, the BID has achieved great success and we are looking forward to continue working with our business neighbours to move Stratford forward.
