# LEARN FROM THE EXPERTS

Join T2RL in Bangkok for a full day of knowledge-sharing sessions and networking opportunities.

## Master classes, providing hands-on practical sessions covering

During the master classes experienced T2RL analysts from around the world will share their knowledge, analysis and insight

- **MASTER CLASS: Refocussing your distribution strategy to compete, are you ready?** How to create transparency across distribution channels in a clear analytical framework and develop distribution strategies to compete.
- **MASTER CLASS: IT Complexity Management.** Streamlining IT procurement and managing IT complexity, risk and cost, focusing on business capability development for current and future business needs

## Afternoon Keynote & Panel Discussion

A view into future technology trends from out-of-industry experts, potential industry challenges and future scenarios, followed by a panel session provoking open debate and discussion, moderated by independent T2RL experts.

## Breakthrough Innovation - extended lunch

A select range of technology suppliers will be available to answer questions and inform decision-making as well as potentially discussing specific system requirements or capabilities directly.

## Network with your peers

Enjoy an included pre-summit evening dinner in a private setting, ideal for informal conversations and networking. Throughout the summit there will also be ample opportunities to engage with delegates during the extended innovation lunch and refreshment breaks and a special drinks reception at the end of the day.
