

## Spot Cleaner

## Cutters

## Steam Irons & Boards

- Steam cleaning tools
- Hand held steamer / brush

## Why struggle with the wrong tools for the job?

The most important task of any fashion designer is to translate wonderful new ideas into exciting creations that delight the prospective purchaser. Delicate fabrics need the very best sewing machines and pressing equipment to yield the best results.

OmniSew has been supplying the trade with a range of professional industrial sewing machines since 1978 and have pleasure in offering you the very best and easiest to use multi-use machines that have been carefully adapted to enable you to concentrate on the job in hand. Our range of machines enable you to save time and money while producing the highest quality work.

We are a customer-focused company aiming to delight you, our customers, with the quality and reliability of our products.

OmniSew also offers a range of electric cutters, hot fix beading tools, spot cleaning tools and top quality steam irons with reversible vacuum ironing boards.

To help you make the right investment in tools for your business, OmniSew has pleasure in offering easy payment terms on all sewing and steam products over £250.
