Pz-HDMI OVERVIEW

Playzone HD Pz-HDMI is a compact device that enables HDMI Video and audio to be displayed and captured via USB 2.0 interface.

Pz-HDMI can be used to monitor HDMI signals on a tablet or PC which is ideal for any video engineers toolkit, simply connect the device to any USB port and open VLC or any other application to display the HDMI Video input and audio on channels 1 and 2. Ideal for use with 3rd party applications such as Skype, Google Hangouts and more to feed HDMI video as a camera source. The Pz-HDMI is powered by the USB slot and does not require any external power, signal LED indicators provide quick visual check of signal input, the device auto detects incoming video format and does not require any additional drivers to be installed.

- Compact, low power, light & easy to use
- Cost effective solution
- Full HD 1080p
- 2 channel HDMI Audio
