## PAINTED KITCHENS WITH BALANCED PROPORTIONS & IMMACULATE DETAILING

Designed in Britain, this beautiful collection of painted kitchen furniture introduces a classic aesthetic while meeting the demands of twenty-first-century living. That's why 1909 adapts flexibly to any style of home.

Crafted from smooth grained timber, the doors are hand sprayed in your choice of 24 carefully selected colours. Drawers have solid oak sides and feature traditional dovetail joints. Decorative cupboard interiors offer the choice of painted, oak veneer or mirrored finishes. The handles and classic butt hinges, all British-made, are available in your choice of chrome, nickel and pewter. Our storage solutions are clever, and so exquisitely designed and engineered that your only challenge will be choosing between them.

1909 kitchens are graceful, but also extremely practical. They are built to the highest specification, yet very affordable. Your many options, combined with the skill of our specialist retailers, make it possible to create a bespoke look with a price-tag which is anything but. 1909 kitchens, including fitting and appliances, are available from just £15,000.

## HALF PENCIL & SCALLOPED

The most detailed of our three door styles blends beautifully into this period home, with the 1909 treatment carried through to the bootroom, glimpsed through part-glazed doors.

This supremely practical design keeps everything within reach, thanks to the choice of a range of hidden and open storage options as well as a central island featuring plenty of preparation space.

Colours here range from bold and confident Charcoal through soft Partridge Grey to Chalk, with natural wood tones in the birch and maple worktops.

The overall impression is enduring and inviting. Family heirlooms and favourite pieces team well with contemporary appliances, creating a comfortable, functional yet stylish kitchen.

*These No.3 bead doors feature butt hinges in polished chrome and [name] handles in [finish]. Classic moulded plinth and cornice add to the period feel.*

*The island features 60mm birchend-grain worktop above slatted maple open storage. Maple is also used as the principal island worktop, incorporating a breakfast bar punctuated with 30mm Carrera marble featuring stainless steel herb and champagne troughs.*

*Part-glazed wall cupboards feature an oak veneered interior. Carrera marble worktops and upstands on the far wall evoke a deli feel, while 30mm Grigio Carnico marble forms an enclosed working area around the range.*

*Come home from a bracing walk to a warm kitchen and the smell of fresh coffee.*

Your 1909 specialist retailer can adapt our furniture to complement adjacent spaces such as dining rooms, utility rooms, boot rooms, cloakrooms, and much more.

## QUARTER ROUND BEAD

This kitchen shows just how well 1909 adapts to smaller rooms. It's a compact design in which space has been carefully considered without compromising on looks or practicality.

Simple and functional, *'quarter of a round'* beading was traditionally used to soften the classic Shaker profile. The two blue shades shown here are inspired by eighteenth and nineteenth-century colours; contributing to the light and airy feel are wall cupboards which feature mirrored backs and are painted an off-white to co-ordinate with the tiles, walls and sink.

*These cupboards are shown in Parchment White and two shades of blue (Morris and Hartforth), featuring pewter hinges and chrome handles. Worktops are Corian in Cameo White contrasted with 40mm full stave prime oak.*

*The full height unit incorporates a barista area, a fridge/freezer and crockery drawers. The island is multi-purpose, with an end bookcase, breakfast bar and pop-up power sockets. The rear wall has two built-under ovens, a dishwasher, a wet area with a moulded Corian sink, a steel ball trivet set into the worktop, and wall cupboards with mirrored backs.*

*A beautiful space just waiting to be shared with friends and family.*

## IN-FRAME SHAKER

Our purest door style is shown here in a neutral palette in a modern family home.

This is a kitchen designed to work hard - yet it has all the good looks and smart storage needed to create a space for entertaining which is beautiful, decorative and easy to maintain.

The fabulous pantry has an independent, free-standing look. Adding to the bespoke feel are quadrant curves, softening the overall effect and providing ergonomic corner storage. The pilasters have been pulled forward to add detail to the cornices, worktops and plinths.

*These in-frame Shaker cupboards are shown in Flint Grey and Almond, with chrome handles and [finish?] hinges. The versatility of the curved furniture is demonstrated by the large base quadrant complementing the smaller wall cupboard.*

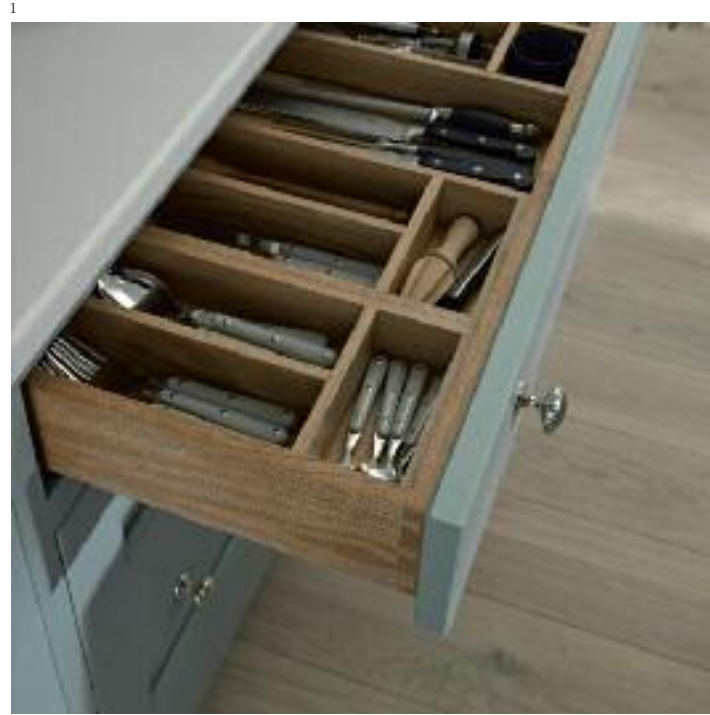

*The full-height pantry has a sliding rack at its heart, concealing a pull-out chopping board, hanging for wine glasses, a plate rack plus storage for spices, recipe books and breakfast items. There's also a handy blackboard panel to ensure the pantry is always well stocked. (Turn to page 30).*

*The principal worktops are 30mm crema marfil and 40mm full stave prime oak; the pantry has 30mm dark empredor marble and 60mm birch end grain. The open wall cupboards are painted inside and feature 9mm toughened glass shelving.*

# STORAGE

Behind each 1909 door there's a place for everything, thanks to some very clever storage ideas. Choose from simple cupboards to plentiful pull-outs, pantries, drawers with customised partitions, bookshelves, options for curves and more.

# WHERE TO BUY YOUR 1909 KITCHEN

1909 kitchens are available from a network of specialist independent retailers across the UK.

You'll benefit from their significant experience and expertise as they guide you every step of the way towards achieving your perfect 1909 kitchen. From first seeing 1909 in their showroom to their design service, project management and fitting, your local independent retailer will work with you to create what you want in your kitchen and in any related spaces.

1909 retailers are often family-run businesses, so their local reputations are very important to them - and that means they'll take personal responsibility for your kitchen. They'll have lots of ideas for making the best use of your space and creating a design that's all your own, and can guide you as to what will work and what may not.

Buying a new kitchen means a lot to think about: not just the cupboards themselves, but also plumbing, electrics, flooring, tiling, appliances and more. So it's good to know you'll have the personal attention, vision and support of an expert specialist retailer.
