

Vision

To successfully prepare each child for a future in which they will embrace and explore every opportunity

Mission

To discover, nurture and celebrate the unique strengths of each child in an inspiring learning environment, developing happy, confident and passionate learners

Core Values

Our mission is expressed through core values that form the guiding principles of keeping children at the heart of all we do. At Sherborne House, we aim to:

Inspire children through a learning experience that offers purpose and challenge, reflecting their interests, piquing their curiosity and finding their strengths so that they persevere to build on their successes and carry their learning forward within a curriculum and co-curriculum delivered by committed, passionate teachers

Nurture children's character so that they become content and considerate, reflective and resilient, with a clear sense of their own values and worth as individuals and learners, together with their commitments to their friends and community

Value each individual within our school by recognising each child's unique requirements and celebrating their personal successes as well as working in close partnership with every family, keeping the child at the heart of every decision

School Progress Plan: 2019 – 2020 Priorities

Over the last three years, Sherborne House School has been working on a number of key initiatives as part of the School Progress Plan 2017 - 19. These include the development of:

- Talk for Writing in English
- Progressive calculation strategies in Maths
- Swivl video recording and coaching
- Learning Powers

Sherborne House have recently undertaken a series of activities to evaluate its provision. As part of this, the school reached out to those closest to the school - our parents, pupils and staff - to understand areas of strength and particular points for development. The findings have been incorporated into a School Progress Plan.

Over the next academic year, Sherborne House will be focusing on three key areas which are aligned with our mission and will support us in bringing our vision to life. The three key areas are:

Priority 1

Partnership

- Integrating Pupil Voice fully into the school plans
- Ensuring the structure of the school wraparound care fully meets the needs of families
- Ensuring that the staffing structure and systems are clear and supports effective communication for pastoral care
- Providing clear visibility of the future direction of the school

Priority 2

Making Learning and Future Pathways Visible

- Empowering our pupils by enabling challenge and encouraging independent and reflective thought so that they have a greater self-awareness and understanding of their own progress, achievements and areas for development
- Supporting parents in making decisions around future schools and understanding progress

Priority 3

A Learning Environment that Inspires Through Opportunity

- Delivering a curriculum and co-curriculum that fully draws on and develops children's strengths and interests
- Ensuring staff are developed and empowered to teach in a way that supports the best traditions of the school while embracing innovation
- Creating an environment within and beyond the classroom that maximises learning opportunities
