## Identifying needs, designing solutions

Our Research & Development Department combines 3D printing technology with the latest Market Research and Product Design to create prototypes from which we develop innovative solutions for the modern bathroom.

Cool touch shower valves incorporate the ultimate safety feature. The body of the shower valve will stay cool no matter what the temperature of the water is.

These products have been designed with the fitter in mind. All fitter friendly products are simple and straight forward to install, saving both time and money when fitting.

Easy clean glass products come with our wet shield coating technology applied to the glass. Watch the water bead up and roll straight off the glass keeping your shower enclosure looking brand new for years to come.

Ideal for wet rooms and wet areas. Products bearing this logo are 100% resistant to water damage.

Exclusive to us, these products have patented technology that you won't find from other manufacturers.

All toilet products showing this logo have a soft close action mechanism for a little touch of luxury.

All products showing this logo have a soft close action mechanism for a little touch of luxury.

Perfect solutions for those tight spaces. Our space saver options offer style and functionality where space is at a premium.

# Lifetime guarantee

as standard\*

We have a specific intention to combine the best quality design with affordability of all products.

All products go through a meticulous testing process and we can offer a lifetime guarantee as standard\* on all our products. We realise how important it is for our customers to have a product they can trust and rely on to stand up to the rigours of daily use.

When purchasing from us you can rest easy, knowing you have a product which will stand the test of time.

Our research and development team have ensured our products are at the forefront of our field, technologically and aesthetically. We use cutting edge materials with tried and tested techniques which makes us unrivalled in quality and cost.

Our extensive market knowledge and decades of combined experience has allowed us to produce an outstanding collection of bathroom products.

\*See Information page (at end of brochure) for exceptions.

Classic, contemporary, traditional, square, conical, minimalist, decorative, mixer, pillar, washbowl, waterfall. The world of tap design is broad and varied and offers much in the way of choice for the customer. Using cutting edge materials and the highest specifications, our collection is unrivalled in quality, with a lifetime guarantee as standard on most products\*.

# Instant Boiling Water System

## Instant Boiling Water in your kitchen

Designed to provide instant 98° pre-filtered water through our Child Safe Tri Flow polished chrome tap, in addition to providing standard hot & cold water. The compact brushed stainless steel 2.4 litre tank fits unobtrusively under the sink, maximising storage space.

Temperature adjustable from 75° to 98° and complete with colour digital display and smoked glass touch screen control featuring the temperature displays.

Our unique unvented system means no extra pipework for drainage is required during the quick & easy installation process and no excess discharge, saving on water and metered bills.

**Most of the other units on the market need a separate cold water supply plumbing in... Not ours!**

### Tri Flow Tap

Standard hot & cold water dispensed at your desired temperature through the elegant swivel mixer lever, delivering controlled water as required.

Boiling water is instantly dispensed via the Child Safe Spring Locked Handle, running independently through the centre of the spout ensuring your tap is always cool to the touch.

The tap delivers a completely safe flow of water from the spout without any of the dangerous spitting of hot water that has been associated with other manufacturers' products. The tap also features a 360° swivel spout for ease of use and flexibility.

**The tap comes with a 5 year warranty.**

### Boiler Unit:

The Boiler Unit has a temperature sensor giving a digital external reading of the current water temperature. The tank is not under mains water pressure meaning the system is unvented and therefore no excess water is discharged to drain.

A float sensor detecting the water level in the tank, avoids damage to the boiler unit and an overheat stat is included for safety in operation. Water storage in the 2.4 litre tank is fully insulated to maintain the temperature and minimise running costs.

With a brushed stainless steel surround, smoked glass top incorporating a digital touch control and functional colour display, the unit is aesthetically designed and compact enough to fit discreetly into your base unit (Overall height 315mm, Width 210mm, Depth 210mm).

Instantaneous beverages made on demand are proven to reduce water waste & costs compared with constant kettle boiling and the tank is capable of holding enough water for up to 10 cups of tea & coffee. The appliance is supplied with a carbon rod filter designed for absorption & removal of calcium, magnesium, odour, dirt & particles, etc.

**The boiler comes with a 2 year warranty.**

For Wastes see Ancillaries - Section 10

### Tap Features at a glance

- High quality Tri Flow chrome finished kitchen tap
- Hot and cold lever mixer handle with standard water on the right
- Child safe spring lock boiling water dispenser shown on the left
- 360° swivel spout
- 5 year guarantee

2 outlets. Compatible with  
TSRK01 and RR001  
TRAD004 £301.72

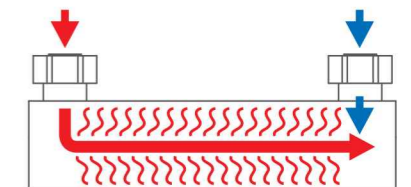

# Thermostatic Bar Valves

# Cool Touch Technology

Our opulent range of "Cool Touch" thermostatic valves contribute to a safer shower environment for all users. The cold water feed creates a jacket effect around the hot water supply keeping the exterior of the valve "cool" to the touch.

**Standard Bar Mixer**  
The hot supply runs across the valve before being mixed, heating the valve body making it uncomfortable to touch

**Cool Touch Bar Mixer**  
The cold supply runs across the valve before being mixed, making the valve body cool to the touch

Cool Touch Minimalist Thermostatic Bar Valve  
TBV05-CT £112.01

Cool Touch Round Thermostatic Bar Valve

# Enclosures

An enclosure should complement the overall design of a bathroom, as opposed to take away or get in the way. Clever design and ergonomics should be coupled with functional features, such as easy installation and cleaning. Our enclosures stand and slide with effortless elegance and we make sure they come with all the right accessories for the perfect fit.

Basin Units & Mirror Cabinets	165
LED Mirrors	166 - 169

# Furniture

# Furniture Features

**Rigid Construction:**  
All of our furniture is pre-assembled with rigid construction for an effortless install.

**D shape handle option:**  
We understand that sometimes the little things count, selected pieces of furniture have the option of a D-shaped handle.

**Modular Sets:**  
All KASS furniture can be mixed and matched for ultimate customisation.

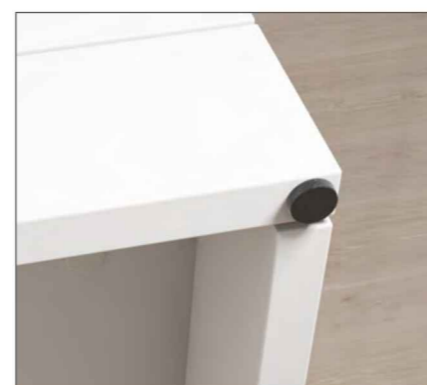

**Metal Drawer Boxes:**  
Selected furniture comes with high quality metal drawer boxes, this grants remarkable endurance and a smooth opening.

**Soft Close:**  
Selected Furniture also comes with soft close doors and drawers, preventing slamming and possible damage.

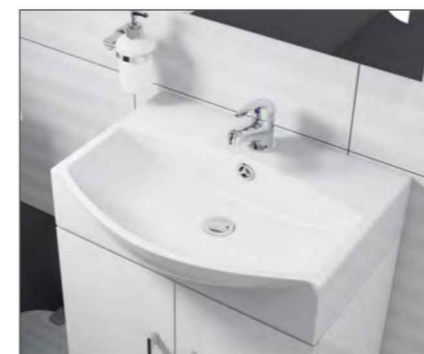

**Space Saver:**  
We concern ourselves with how to maximise space within your bathroom; that's why we offer space saving furniture sets.

**Feet:**  
We supply feet with all of our furniture, elevating them from the ground and preventing any damage from the underneath.

# Basin Styles

Ceramic

Glass

Polymarble

**Basin styles:**  
A great deal of our luxury furniture can be selected with a range of basin styles; ceramic, glass or polymarble allowing for ultimate customisation within your existing bathroom. Our Idon furniture offers super deep basins for improved water capacity.

Mid-Edge

Thin Edge

## Black Glass Basins\*

Exclusive additional option for Idon Range & Pebble D Shape Series

\*Requires unslotted waste

## Idon Options

Our popular Idon Range adds a stunning, contemporary design look to any bathroom and comes in a choice of three finishes of Grey, Gloss White and Black.

We are now offering our Idon Basin cabinets in a choice of five different basin styles (see overleaf).

### How to order

#### Step One

**Choose Your Cabinet Finish**  
Choose your Idon set from Grey, Gloss White or Black on the following pages.

#### Step Two

**Choose Your Basin Style**  
Choose your basin style and size from the options on the next page. (Compatible size basins are also listed under each basin cabinet).

#### Step Three

**Place Your Order**  
Choose your required cabinet & size, matching to the basin style of your choice and place your order, quoting basin & cabinet codes.

Idon Gloss White free standing cabinet with black glass basin

Idon Black free standing cabinet with Mid-Edge Polymarble basin

Idon Black free standing cabinet with thin edge polymarble basin

Idon Grey wall hung cabinet with thin edge ceramic basin

Idon Grey free standing cabinet with mid-edge ceramic basin

# Futura WC & Basin

## How to order

### Step One

**Choose Your Cabinet Finish**  
The Futura WC Unit comes in Gloss White, Black Ash & Gloss Grey options.

### Step Two

**Choose Your Pan & Seat**  
A choice of D-Shaped, Montego or Daisy Lou pan & seat are available for all colour options\*

### Step Three

**Place Your Order**  
Quote the codes for your WC Unit with pan & seat option from the table.

Our Futura range of WC Basin Cabinets provide stylish solutions when space is at a premium such as cloakrooms and small en-suite bathrooms.

Three colour choices of Gloss White, Black Ash and Gloss Grey are available, matching to our Futura basin.

### Features

- Ideal for cloakrooms & tight spaces
- Perfect for en-suite bedrooms
- Dual flush concealed cistern
- Fittings included
- Push button plate

Futura basin.

# Baths

Baths are the epitome of luxury and care. Both timeless and a place where time can slow down, baths represent thought, reflection and ease. When it comes to selecting a range, we make sure these ingredients are central to our process. We take great care and time ensuring our baths are luxurious and effortless, putting thought into every detail. Simple, streamlined and generous, they sit proudly in any scheme, complete with our range of taps, fittings and screens to create the perfect finish.

### Smart Bidet Toilet Seat

Our Smart Toilet Seat provides the optimum multifunctional cleansing experience. Combined with its power saving features the Smart seat virtually eliminates the usage of toilet paper or wipes making it environment-friendly too.

Combined with the advanced technology, each user can tailor their own preference. Whether it be the seat or water temperature, nozzle position or the fully temperature adjustable warm air dryer, to give the ultimate hygienic cleansing experience time after time. The unit also offers an automatic cleansing function and deodorization function.

The Smart Seat is also an ideal solution for less abled users as it is accompanied with a sleek easy to use control panel.

Smart Bidet Toilet Seat  
With Dual Nozzle & Massage Control  
TSB003 £754.00

#### Features

- Cleanse mode rear & frontal
- LED Light & night light
- Deodorization function
- Fully adjustable nozzle positions
- Adjustable seat temperature levels
- Multiple air dryer temperature levels
- Adjustable water pressure levels
- Fully adjustable water temperature levels
- Energy saving mode
- Auto and manual nozzle cleaning options
- Pulsating massage function
- Fully automatic cleansing function

### Bidet Seats

Bidet Seats are becoming increasingly popular as an extra aid for hygiene and comfort in the modern bathroom.

**CVB015** £118.73

# Heating

Long gone are the days when radiators merely served their purpose. The vast range of considered designs and striking styles can be the finishing touch that makes or breaks a bathroom. It's that extra level of thought and attention to detail that elevates the humble radiator from the functional to the chic.

Our radiators are of the highest quality specification, in a range of colours and finishes. Classic, contemporary and elegant, our signature style is crisp and clean in chrome, white and anthracite.

Designer Radiators	208 - 210
Towel Radiators	211 - 215
Traditional Radiators	216
Radiator Valves	217
Smart Thermostatic Element	217

## Radiator Valves

## SMART Chrome Thermostatic Element

SMART is an electronic thermostat for the automatic control of electric towel radiators.

An internal sensor keeps the towel radiator's temperature at the desired level.

# Information & Maintenance

## CE & EN Information

The CE marking on The Company's products is a declaration that the product complies with the essential requirements of the relevant European health, safety and environmental protection legislation. The CE marking on a product indicates to government officials that the product may be legally placed on the market in their country. This ensures the free movement of the product within EFTA and European Union single market and permits the withdrawal of the non conforming products by customs and enforcement authorities.

The European Union's "new approach directives" are mandatory on all member countries to enact through national legislation. This legislation requires manufacturers to display a CE marking on their product, packaging and accompanying literature. Where a new approach directive is in force, it is (with few exceptions) an offence to place a product on the market without a CE marking.

## Deliveries

Deliveries should be inspected immediately after receipt, any discrepancies should be notified within 7 days, notifications received after this period will not be accepted.

Goods supplied are subject to carriage charge \*ask The Company for details\* Lead time direct to a reseller is up to 5 working days. 24 Hour Delivery is available subject to a carriage charge. Home delivery is also available subject to a carriage charge.

All goods must be signed for by the customer as unchecked.

## Cleaning

- It is important to clean your shower door and tray after every use. Wipe down all the glass and metal parts with a soft cloth.
- Do not allow lime scale to build up in hard water areas.
- Ensure that any residual water on the glass is removed after every use.
- Clean the glass regularly using soapy water.
- Do not use abrasive products on any surfaces.

Install enclosures in a well ventilated area.

Always read the instructions on the packaging, bathroom products are vulnerable to acid attack and some strong household cleaners including strong disinfectants, denture cleaners, hair dyes, wine making chemicals and photographic chemicals may contain acid. These materials may have a varying effect on the surface from black spots/streaks (which cannot be removed) to pitting the surface. Contact with these materials should be avoided.

## Mirror Care & Maintenance Guide

To help maintain and care for your Mirror, we have compiled the following guide to help ensure your new mirror retains its sparkle for years to come. It is important to clean your Mirror after every use. Wipe down the mirror, glass and metal parts with a non-abrasive soft cloth. (as applicable). Do not allow lime scale to build up in hard water areas. Clean the glass regularly using warm soapy water only. Never use, steel wool, scouring pads, acid, alkali, vinegar or abrasives on your mirror. Any stubborn dirt should be wiped off carefully with a non-abrasive cloth, be careful not to scratch the mirror. Always read the instructions on the packaging.

## Shower Enclosure Adjustment

This is the min and max adjustment of the actual enclosure. These are the adjustment dimensions of the actual door excluding the tray. Therefore, these are the dimensions to follow when installing an enclosure in a wetroom application without a tray.

The guide below may be helpful in taking measurements to determine the shower door or enclosure size required. Dimensions given in this publication are in millimetres, are approximate and may vary with adjustment. They are subject to change without notice.

Please note that when a tray is fitted it is essential that the tray is level before any doors or enclosures are fitted. Uneven trays may lead to leakages and would invalidate our guarantee.

## Bath Screen Information

Bath Screens are not designed to fit on baths with stepped fronts, roll top rims or integral soap dishes. Fitting of screen on baths which have a raised head rest or shape is not recommended. Screen must not be impaired by bath handles. Bath Screens are not designed to fit on baths with stepped fronts, roll top rims or integral soap dishes. Fitting of screen on baths which have raised head rests or shapes is not recommended. There must be no items causing obstruction with the seal and bath, as any of the above may cause leaks.

When choosing your Bath Screen, please ensure that if your bath has bath handles, that they do not interfere with the bath rim area where your screen will be placed. When choosing an in-swing or folding Bath Screen, please ensure your swing area is not interfering with any brassware or internal shower features. Similarly, when choosing an out-swing, please ensure the out-swing area is free from any obstructions.

## Important Shower Tray Information

Although shower door and enclosure sizes are related to tray sizes it is important to note that most shower trays are tiled down to the rim, often over an 'up-stand'. The finished installation space may be less than the nominal tray size. Shower units are made to suit this remaining space.

## Tray Finish Min - Max

The tray finish applies when fitting a door and a tray. These are the minimum and maximum dimensions that a shower door or enclosure will fit using standard wall profiles.

## Tray Finish

To find the correct tray finish dimension:

In a recess: Measure from the finished, tiled wall to the opposite finished, tiled wall. In a corner: Measure from the finished, tiled wall to the edge of the tray. Note: If the wall/walls are leaning in, this will further reduce your tray finish. Please ensure that the size of shower tray is as per your order before installation. You must inspect the product thoroughly before installation. Fitting the product is acceptance of quality. Tray heights may vary due to manufacturing tolerances. Where your shower tray is not fully enclosed please ensure that your panel is at least ¾ of the length of your tray size. Please ensure that the shower head is not positioned over the waste as this may restrict flow rate.

## Returns

No return of goods will be accepted by The Company without prior authorization and compliance with our returns procedure. In the event that the customer returns any goods which are not defective, such goods will be accepted by The Company only if they are returned to The Company in an undamaged resalable condition which requires that the goods are unused and contained within their original unopened and undamaged packaging:

After The Company has inspected the goods, The Company reasonably considers that the goods are in a condition which is no worse than the condition in which the goods were delivered to the customer; and the customer has returned the relevant goods to The Company within 21 days of the delivery date.

In the event that the Customer wishes to return non-defective goods to The Company following the expiry of the 21 day period, The Company will have absolute sole discretion as to whether it shall offer a refund to the customer in respect of such goods.

In relation to any returns made for non-defective goods. The Company will deduct a 20 % fee in the first instance, however, we reserve the right to deduct up to 40 % of the price paid as a discretionary restocking fee plus the cost of carriage. This is in order to cover The Company's administration and restocking costs.

The Company will not accept any return of (or issue any refund or credit in respect of) non-faulty goods more than 21 days following the delivery date

(If a return of non-defective goods has been agreed by The Company, it is up to the Customer to transport these goods back to the Company's premises at their own cost. The company may arrange transport on your behalf, however, charges will apply and shall be deducted from any monies owed in respect of the return).

## General

All products are supplied complete with full installation instructions and the necessary fixings.

Check with your dealer for accurate matching of material samples. Product descriptions do not imply the use of precious or valuable materials. Our policy of reviewing product design and development on a regular basis means The Company reserve the right to change product specifications and prices without notice. Glass shattering and parts subject to wear are not covered by the lifetime guarantee. Boiling Water Tap, Boiler and its ancillaries also not covered by our lifetime guarantee. Waterstop not covered by our lifetime guarantee.

Trays shown in this catalogue are for illustrative purposes only. The positioning of all showering heads in the brochure is for illustrative purposes only.

All descriptions, specifications and particulars contained in this brochure are intended merely to represent a general idea of the products described herein and none of these form part of any contract to give rise to any independent or collateral liability upon the company. Prices were correct at time of print. V.A.T. is calculated at the rate of 20 %. E&OE. Due to circumstances beyond our control, prices may be altered including changes to the rate of V.A.T.

Due to our policy of continuous improvement, we reserve the right to amend prices, specifications and designs without prior notice. Images are for illustrated purposes only. The colours and finishes shown in the catalogue are as accurate as possible with in the limits of the printing process. All descriptions, specifications and particulars contained in this brochure are intended merely to represent a general idea of the products described herein and none of these form part of any contract to give rise to any independent or collateral liability upon the company.

## Liability

In the event of any breach of The Company's obligations the remedies of the customer will be limited through damages. Except as set out in these conditions, all warranties, conditions and other terms impaled by law (whether by by statute, common law or otherwise), are to the fullest extent permitted by the law, excluded from the contract.

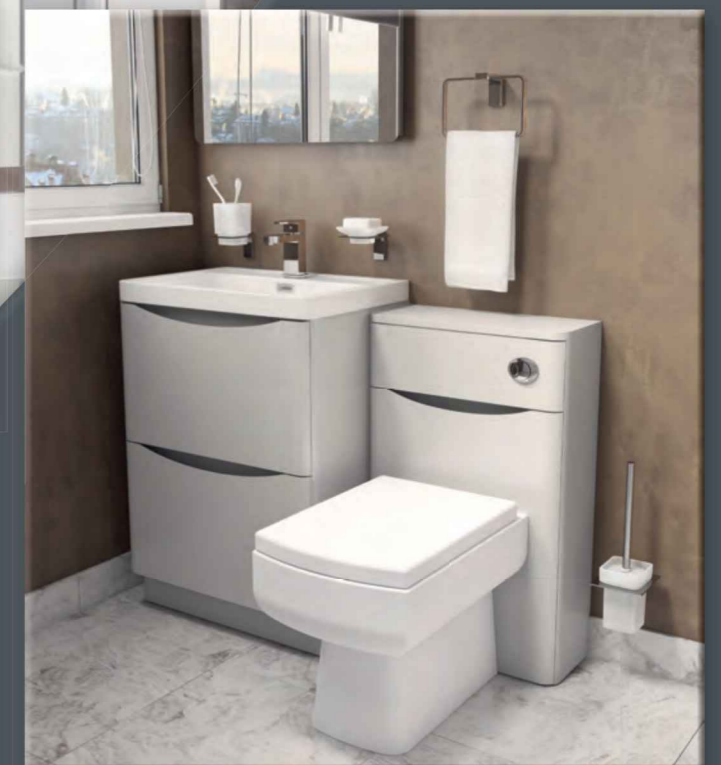

The Company's maximum aggregate liability arising out of or in connection with a contract, whether in a contract, tort, misrepresentation under statute or otherwise, howsoever caused including any liability under an indemnity contained in the contract and/or arising from a breach of, or a failure to perform or defect or delay in performance of, any of The Company's obligations under the contract and/or any defect in any of the goods supplied under the contract and/or any use made or resale of any such goods by the customer or of any product incorporating any of such goods shall be limited to the aggregate price paid or payable under the contract.

The Company shall not have any liability to the customer for any loss of profit (direct or indirect); loss of revenue, loss of production or loss of business (in each case whether direct or indirect); loss of goodwill, loss of reputation or loss of opportunity (in each case whether direct or indirect); loss of anticipated saving or loss of margin (whether direct or indirect); liability of of the customer to third parties (whether direct or indirect); consequential or special loss; arising out of or in connection with the contract, whether in contract, tort, misrepresentation under the statute or otherwise, howsoever caused including by negligence and/or arising from a breach of, or a failure to perform or detect or delay in performance of, any of The Company's obligations under the contract.

Nothing in the contract shall operate to exclude or restrict The Company's liability (if any) to the customer for breach of its obligations arising under section 12 of the sales of good act 1979; for breach of its obligations arising under section 2 of the supply of goods and services act 1982; for death or personal injury resulting from its negligence; for its fraud or fraudulent misrepresentation; or for any matter for which it is not permitted by the law to exclude or limit, or to attempt to exclude or limit, or to attempt to exclude or limit, it's liability.
