

MIGHTY EMU
studios
visuals & animation

Mighty Emu Studios was founded by Emmanuel Beyer, who has over ten years of experience working with high-end clients in Europe, USA and the Middle East.

We are able to provide your CGI requirements, both in still renderings and 3D walkthroughs.

We also offer a surveying and drafting service. We can create as-built plans for your projects as well as do needed drafting work as part of your production process.

Each drawing or visualization project is unique, so drop us a line and let's discuss your needs!
