

RAMPACK TROJAN 50 HORIZONTAL BALING PRESS

FEATURES

The Trojan 50 is a British made machine, including Rams, PowerPack, Motor etc. It exerts genuine 50T pressure to produce dense, Mill-size bales, increasing rebate values and reducing waste disposal costs considerably.

The Trojan 50 can be supplied with open or enclosed hoppers and can be loaded using a variety of options including conveyor, bucket tip or bin tipper.

OPTIONAL EXTRA

- The TROJAN 50 can be built to suit all requirements.
