aerizo

Simplify. Commit. Deliver.

Corporate Profile

Corporate Profile

Innovation & Discipline is key to the Evolution & Sustenance of businesses across the Globe.

The same principle lies at the core of the formation of Aerizo. We provide solutions in Technology, that are innovative and in Human Resources; which constitutes the structural backbone for an organization to succeed.

As a fast growing entity in the ICT sector in the GCC market, Aerizo primarily focusses on Information Security Consulting & Advisory Services, IT Infrastructure along with a dedicated business unit for niche and disruptive solutions in core spaces namely: Hyper-Convergence, Pseudo Hyper-Convergence, DR Automation & Business Continuity, SIEM, Identity & Access Management etc.

In the field of Distribution, Aerizo have strategically partnered with IP Technology Labs & Air Communication as exclusive Partners for the MENA region to cater to the evolving telecommunications market.

In Accounting & Book-Keeping, we offer outsourced Accounting and Book-keeping services to our SME clients. This helps them to focus on their core businesses rather than keeping up with the nuances of accounting and keeping records upto-date.

Vision Statement:

"Our vision is to create a mutually beneficial long lasting relationship with our clients and business partners. By being able to incorporate new to market and niche advanced products/ Technology while constantly working on our existing product line, we develop entrusted relationships."

Mission Statement

Simplify. Commit. Deliver.

Core Values

In all of our business activities, we embrace these core values as a guiding philosophy and way of life.

- o Quality - Quality is our way of life. We are never satisfied with how things are. We strive to continuously improve in all of our undertakings, always consistent with our total quality philosophy.

- o Customer Orientation - Our Customers are our lifeblood. We exist because of our clients. They should rightfully be the highest priority of our attention.

- o Team Orientation - We work as a team, fostering cooperation rather than competition. By working together in harmony toward a common goal, we accomplish more than working alone.

- o Discipline - While we promote camaraderie to usher in a climate of openness, we never sacrifice our Professionalism, Integrity and Competence - key attributes that sum up our work philosophy.

- o Ethics - We strive to build and nurture a lasting partnership with our Clients.

- o Result Oriented - We value results more than the meaning of attaining them. We always begin any undertaking with the end in mind. We take a step forward, conscious of our moves, never straying from our path towards our goal. We take proactive rather than reactive instances. We make things happen.

Organizational Structure

Aerizo team's have been carefully chosen based on their expertise, experience, ability, performance records. The Management and other resources have worked together in strengthening the company's policy to develop and maintain close relationships with the client base and providing efficient and professional services.

Our Strength

*"TEAM - **T**ogether **E**veryone **A**chieves **M**ore"*

Aerizo's primary strength lies in our highly proficient team, technology-driven product range, varied industry focus, enterprise clients, proven distribution channel and a professional support infrastructure.
