**combine desk & storage**  
the joint power of Pico and  
Freestor storage brings  
unique endless configurations  
to create individual spaces

introducing olio.

flexiform

We're here to get the right tools into the right hands. To understand the heart and soul of your business, and use original solutions that will sustain it for generations.

We're here to enable businesses. No matter, from manufacturers to retailers, small family businesses to multinationals, to define how we do, rather than own, our results together.

We're here to save money for our customers, with flexible financing, and the ways to put our heads together and save what really counts.

To use an upgraded fleetwide, increase fleetwide, three million miles of road, and three kids through awards.

To use a rollout of new printers, less toner, less power, less waste, reduced power bills, and lower paper prices and high class of return.

To use a new fleet of cars, increased fuel efficiency, an improved fleet management system, and a sound system that makes any drive fly by.

To use an HR system, more clients, connected by social, diagnosis, and that for the few more years of the staff.

To use a flexible, guaranteed cash flow, an improved system, a warehouse full of dreams, and a new level of connected mobile. That's all.

We're here for you all the time, the parts and the plan to see what really matters to your business, and to make it all count.

See us both ways.

People are the heart  
of our partnership

“olio is ideal for agile workspaces  
and creative organisations  
requiring flexible spaces”

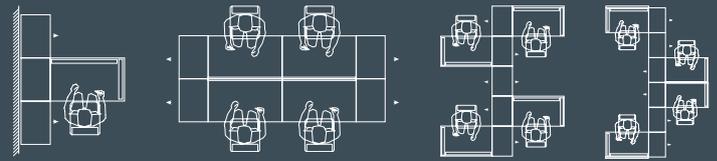

Storage is available in 3 tiers with drawers, hinged doors, pass through, box, flippers and shelf compartments

Olio comprises desktops, frames, legs and storage units. Build up like interlocking bricks to create a selection of unique desk and storage configurations. Desks are extendable, creating side-to-side and back-to-back configurations. Storage units are integral to the structure and design - accessed from different sides, the desking storage combination creates a unique looking product.

# OLIO

Olio's unique building block approach to desk and storage gives the flexibility to create interesting and versatile layouts. With minimal components the range is ideal for high churn rate offices.

## FEATURES & BENEFITS

- Unique configurations create an interesting layout.
- Staff have instant access to storage while at their desk.
- Strength and functionality combining Pico desking and Freestor storage ranges.
- Tailor the configurations; private or collaborative set-ups and multifunctional storage.
- Add colour highlights and feature to the office.
- Desks can be single, side-to-side or back-to-back.
- Desk widths: 800mm, 1000mm, 1200mm, 1400mm, 1600mm or 1800mm, all desks are 800mm or 1600mm deep to match storage width.
- Choice of goalpost legs or rectangular loop legs.
- Desks have a sliding top for easy cable management access.
- Optional desk mounted screens for privacy.
- Optional scallop tops for bringing power and cables to the desktop.
- Minimal parts, supporting storage eliminates the need for legs\*.
- Multiple levels of storage; 1 low (desk high), 2 medium (screen height) and 3 high.
- Different parts of the storage unit can face alternative ways for access for the user or in corridor space.
- Tailor storage to users' needs with optional hinged door, side filer drawers or open shelving on the lowest tier, and pass-through (shown), box, flippers on the top levels.
- Desk high storage has 25mm MFC.
- All level 2 and 3 storage can have contrasting colour insert panels.

## CABLE MANAGEMENT

- 3 types of cable management available; through desk cable towers (if applicable), through storage worksurfaces (for dado rail power) and up storage units (for use with floor grommets).
- Removable cable grommet for feeding cables through connecting storage units.
- Cables feed into shared cable trays to power desks.
- Alternative cable slinky option (as shown left).

Top & Mid: Front & back of large Olio configuration. Bottom: Single Configuration

8 \* Depending upon configuration

Colour accents are on level 2 and 3 storage units and are visible from the front and back of the units

## STORAGE

Olio storage units are all 800mm wide and consist of drawers (shown), boxes, pass throughs (shown), flippers or hinged doors. Accessible from both sides, storage can be mix and matched for individual user needs.

Bespoke cushions can be added to level 1 storage as a perching area. Ideal for informal meetings or a perch point while looking for a file.

Together we make it count

**Perch here!**

**Use pass-throughs as a feature**

**Olio is available in 15 standard colours and 7 worksurfaces**

**Access me from the other side**

**Storage can face all one way or mix and match to access storage units from both sides of the configuration**

## CABLE MANAGEMENT

---

Olio has various cable management options to suit all needs. Cables can feed from dado rail power through integral grommets (1) into the storage tray (2) which is accessible through a removable 25mm MFC worksurface. The cables run through the connecting units to the under desk and on-desk power modules.

If the building is fitted with floor grommets, power cables can feed up through the units (3) via a removable side panel and into the storage tray (2).

Alternatively, power can run up the cable towers or cable Slinkys and into shared cable trays. A full cable management system ensures Olio is versatile, adaptable and future proof.

# lets get a little technical

## DESK FRAMEWORK

All Olio frames and legs are manufactured from cut steel tube for strength. Beams are fabricated from 40mm x 25mm tube, and legs from 60mm x 30mm tube. Tested to over 200kg of imposed load with minimal deflection. Steel is powder coated with minimum paint coverage of 35 Microns. Indentation, cross cut+ adhesion, and bend tested.

Please note: Do not sit on worktops when the tops are fully extended.

## CABLE MANAGEMENT

Olio desks and storage have various cable management options. Storage units have discrete steel grommets in the side which can be pushed through to feed cables to desks. Storage units also have the capacity to feed cables up from floor grommets. Alternatively, desks are available with a shared cable tray and cable tower to feed units from floor grommets. To discuss the best cable management options for your configuration and building please contact a Flexiform representative on 01274 706206.

## WORKSURFACES

FSC®-C015991 certified. Our Olio desk worksurfaces are 25mm Melamine faced chipboard (MFC) with 2mm ABS matching edging as standard. Worktops can be supplied with contrast edging. Our worktops meet British standard 476 class 1 surface spread of flame, and E1 European standards on Formaldehyde emissions. Alternative tops including laminate can also be supplied, please contact a Flexiform representative on 01274 706206 for more information.

## STORAGE

All our Olio storage units go through a 4-stage treatment process. Fully welded for exceptional rigidity and stiffness. Side panels are non-load bearing and are fixed to top, back and base. No joins in the carcass to front or side elevations. Drawers: 18-gauge steel with smooth goose neck handles for easy operation. Full extension runners providing a 90% opening. Lockable. 45kg loading. Doors: Fully welded 18-gauge steel with stiffening rails. Hinged doors open 120 degree ensuring clear access space for users. Floor levelling feet supplied.

## SCREENS

Olio desks can be installed or retrofitted with privacy screens if desired. Flexiform have 2 standard screen ranges available, Our fabric zip screen system "Fyn", or our aluminium framed screens. Each of our screen systems clamp on to the rear of the desk. Our aluminium frame screens are 30mm thick x 370mm high and can be filled with Plexiglass (acrylic), Polycarbonate or Fabric. Available with 1 or 2 built-in rails for hanging accessories such as pen trays. Fyn screens are available in 8 popular fabric ranges, and 5 zip colour options. Each Fyn screen is 40mm thick x 370mm high.

## AVAILABLE DIMENSIONS

Olio storage units have a footprint of 800mm x 475mm. Each desk top is 800mm deep to match the storage unit and is available in 800mm, 1000mm, 1200mm, 1400mm, 1600mm and 1800mm widths. Footprints vary considerably depending upon the configuration. Please ensure when designing a configuration adequate space is left for accessing units and desks.

\*Measurements with rectangular tops, alternate top shapes have varying sizes.

## WARRANTY

Olio desks and storage come with a minimum warranty of 10 years from the date of installation.

## AFTERCARE

Due to their resistant surfaces, our worktops do not require any special maintenance. For light soiling, clean with a paper towel, soft clean cloth (dry/damp) or sponge. If using a damp cloth, dry the surface with an absorbent paper towel or microfiber cloth. For normal soiling, clean with warm water, a clean rag, microfiber cloth, soft sponge or soft brush. Use non-abrasive domestic cleaners, remove all traces of cleaning agent with fresh water, and dry the surface with an absorbent cloth or paper towel. Please ensure no liquid accesses the power modules during cleaning. If this occurs, isolate from the electrical supply immediately and consult a qualified electrician.
