Central Vacuum Systems

CENTRAL VACUUM SYSTEMS

Conventional vacuum cleaners are cumbersome and can be heavy to carry around the house. Not only are they noisy but they also release fine dust particles into the air on operation.

Not only is a Central Vacuum System up to five times more powerful than the conventional cleaner, it is quieter, cleaner and simple to operate. You simply plug in a lightweight hose into a discreet wall socket and away you go!

Wally Flex
A handy auxillary hose that fits into any standard vacuum inlet

Retractable Hoses - no need to carry from room to room

Automatic Dustpan

Flexible Filtration Options

Quality Ergonomic Hoses
