

PRESS RELEASE – FOR IMMEDIATE RELEASE

May 10, 2018

TURBINE CONVERSIONS, Ltd announces Brazilian ANAC approval for Single Point Fueling System on Thrush and Air Tractors Agricultural Aircraft.

Turbine Conversions, Ltd received ANAC STC # 2015S04-03 on April 11, 2018 for its Single Point Fueling System installation on all models of Thrush Aircraft and All models of Air Tractors (401, 402, 501, 502, 602 and 802). "TCL has been actively trying to bring our quality products to the South American market for the past several years. There is so much potential in this market place and we want to be able to support the Brazilian Ag

Operators by offering our amazing fueling system that brings added safety and efficiency to their businesses.", Ann Hatfield - Grahek, Marketing.

"Turbine Conversions is pleased to be able to expand our Single Point Fueling System STC to Brazil and to include Aeroglobo Aeronaves to our family of installation centers as the first South American approved distribution and installation center for Single Point Fueling Systems." Bill Hatfield, President of Turbine Conversion, Ltd. "It is continued cooperation with quality companies such as Aeroglobo Aeronaves that makes Turbine Conversions, Ltd a leader in innovative products for the agricultural aviation industry."

About Turbine Conversions, Ltd - *Turbine Conversions, Ltd is a family owned and operated company that has specialized in the manufacturing of PMA parts and FAA approved innovative enhancements that improve safety and profitability for aircraft since 1990.*
