

ProAccess SPACE

Access Control Management Software

SALTO ProAccess SPACE software has been developed to create a powerful access control management tool. Its features allow you to make the most of your building access control.

SPACE, brings the next level of management flexibility, efficiency and security to your access control solution. SPACE offers new functionalities along with an easy to manage/use interface. This new interface helps users find and operate the functions they want quickly and intuitively. You only order the functions you need to manage your building(s) but retain the option to add to the system as your needs change. This gives you the ability to really control your costs and avoids paying for unnecessary elements until you need them. Full feature list **available here**.

KEY BENEFITS

- Web-based
- Secure
- Easy to Install
- Flexible – only pay for the functionality you need
- User Friendly
- Real-time access control
- Enables smartphone access control

KEY FEATURES

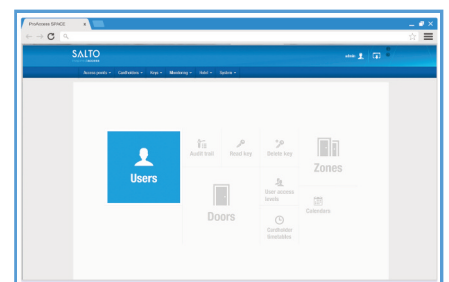

- Up to 4 million users
- Up to 64,000 doors & lockers
- Password protected operator's profiles
- 256 Calendars
- 1,024 Time periods
- 256 Time zones
- Connection to online units through TCP-IP protocols using existing LAN & WAN networks and secured through an encrypted protocol
- Web-based interface means no need to install the software on all client PCs. Also, an update of the server PC means that all client PCs are also updated
- Can be managed or operated from different workstations simultaneously without risk of database corruption
- Easy installation process that includes a powerful SQL engine
- Database protected by SQL authentication or windows-based authentication
- Multi-language and configurable interface makes it easy to adjust the interface to the specific needs and security level of each operator, including operator password protection for a higher security
- Operators audit trail registers changes done by operators
- Interface alerts to be aware of potential conflicts on the setup of the access plan or changes
- Easy to upgrade to additional features to keep in-line with an installation's requirements
- SALTO ProAccess SPACE software can also be used on windows-based tablets

AIT Ltd are UK based providers of print & copy software, ID cards and access control solutions.
