

EMERY HOUSE: PLYMOUTH

TESTIMONIAL

Just wanted to write a short note to thank you for all the work you undertook for us with regard to our 'dressing room extension'.

When we came up with the idea of extending over the existing single storey to provide a dressing room from our bedroom we had no idea that what we would end up with would be the feature of our property. Your design went way beyond our expectations and turned what was just going to be a box room into a bright and airy suite that we quite happily spend time in. We became quite excited that discussions with you gave us the opportunity to incorporate many more features in the extension than we ever imagined. In particular the sliding shutters hiding the balcony doors at night that disappear during the day behind the library shelves were inspirational, and those shelves themselves are such a wonderful addition to the room. In summer we can choose to leave the doors open and enjoy the benefit of an easterly view allowing us to be woken up by the sun rise. Everyone who has seen this new extension has said 'wow', it is not what you expect when you walk through the bedroom door! Not only did you come up with this fantastic design for us but you also took care of everything. You undertook all the day to day management while the extension was being built and you did it in a manner that took any pressure from ourselves. We cannot thank you enough for designing this great addition to our house for us. We would not hesitate to recommend you to anybody.
