HIPPOCRATES
HEALTH INSTITUTE

Under the supervision of Dr. Tina Discepolo, Hippocrates' specialized therapies include hyperbaric oxygen therapy, IV nutrition and antioxidants, advanced diagnostics, bio-frequency research, targeted supplementation and more.

OUR SERVICES INCLUDE:

- Hyperbaric oxygen therapy
- Infrared waves + oxygen
- Exercise + oxygen
- Micronutrient testing
- IV vitamin therapies

MEDICAL PROGRAM *life transformation program*

VIDA
Medical

ALL OF OUR GUESTS IN THE LIFE TRANSFORMATION PROGRAM RECEIVE THE FOLLOWING STANDARD MEDICAL SERVICES

- State-of-the-art blood panels, including cholesterol analysis, blood sugar, insulin, and diabetes screening, comprehensive thyroid testing, inflammatory markers, and Vitamin D are done upon arrival.
- Complete blood count, cholesterol analysis, and metabolic profiles are repeated after 3 weeks of the Life Transformation Program. Review and comparison to initial blood panel is done.
- 30 minute appointment with physician which includes history and exam, blood pressure and weight review, medication review, medical follow-up plan and prescription of therapies.
- 30 minute consultation with RN to discuss prescribed oxygen, IV therapies, and/or parenteral vitamin administration.

CYBERSCAN: STATE-OF-THE-ART BIO FEEDBACK THAT...

Measures the energy field of the guest

All the functions of the human body are controlled by electromagnetic signals. In order to determine whether an immune system is subject to disturbances, we measure the electro-magnetic energy field of the guest. According to the scale of the deviation from a balanced value, one can discuss energy imbalances of the body.

Shows the disturbances of the body

Cyberscan contains a comprehensive database of electromagnetic signals. With this, we demonstrate possible imbalances to the immune system. Patients and practitioners using Cyberscan frequencies have reported benefits on all levels of well-being.

Bio-Well is a non-invasive energy scan that uses a specialized camera and software system. The specialized camera uses light energy from the tips of the fingers that are captured and mapped to the body's meridians. Bio-Well measures the body's overall energy output, stress level, organs and systems energy balance. The information provides an overall holistic view of the state of your health and well-being. Bio-Well provides real-time feedback and allows you to work on balancing your energy states.

Our Cyberscan and Bio-Well services are available to the general public. A consultation with one of our holistic RNs would include:

1. Review state of the art biofeedback results
2. Review bio-frequency energy scan results
3. Nutritional suggestions based on guests' specific health goals
4. Guiding guests on the best therapies to meet their health goals

OXYGEN THERAPY

necessary nutrient

VIDA
Medical

OXYGEN IS OUR MOST NECESSARY NUTRIENT AND IS ESSENTIAL FOR CELL METABOLISM. PROPER TISSUE OXYGENATION IS ESSENTIAL FOR ALL NORMAL PHYSIOLOGICAL FUNCTIONS.

Normally your lungs absorb O₂ from the air. Polluted air, inflammatory diseases that affect our lungs, poor posture and sleep disturbances are a few of the reasons that can prevent you from getting enough O₂.

OXYGEN THERAPY HELPS PEOPLE FUNCTION BETTER BY:

- Improving sleep
- Decreasing physical fatigue
- Disease prevention
- Decreasing brain fatigue
- Increasing stamina
- Decreasing chronic pain
- Improving lung function
- Decreasing shortness of breath
- Improving symptoms of peripheral vascular disease
- Decreasing muscle fatigue
- Improving neurological function
- Decreasing the effects of aging

SERVICES OFFERED

- Hyperbaric oxygen therapy (Vitaeris 320 soft chamber)
- Infrared while on oxygen

*Delivers
nutrients directly
where they are needed*

VITAMIN THERAPY

intravenous & injectable

VIDA
Medical

An entire range of IV nutrition therapies have been developed that offer people great hope in improving their lives. The greatest rationale for IV nutrition therapy is that it is an excellent way to deliver nutrients and necessary biological components directly where they are needed, when they are needed, in a controlled manner. Our intravenous therapies are custom made for your individual needs.

IV VITAMIN THERAPY FOR PREVENTION AND TREATMENT

IV vitamin therapy is firmly based on medical and scientific evidence. It includes not only IV vitamins, but other nutrients, such as antioxidants, minerals, amino acids, and other natural organic components - given as an intravenous infusion. IV and injectable delivery bypasses the digestive system therefore allowing higher plasma and intracellular concentration to be achieved. This is particularly beneficial to guests that require high therapeutic doses of nutrients.

VITAMIN THERAPY IS USED FOR A VARIETY OF ILLNESSES, SUCH AS:

- Cancer
- Chronic fatigue
- Osteoporosis
- Gastrointestinal problems
- Obesity
- Low immunity
- Diabetes
- Cardiovascular disease
- Mono
- Lyme disease
- Leaky gut
- Shingles
- Early dementia
- Neuropathic pain
- Migraines
- Thyroid problems
- Anxiety and depression

INJECTABLE THERAPIES OFFERED AT HIPPOCRATES

- IV colloidal (SILVER)
- High dose vitamin "cocktails"
- IV glutathione
- Vitamin B
- Nebulized glutathione
- Vitamin D
- Nebulized colloidal silver
- MIC B-12
