The Winery

The wines we make at this winery are at the forefront of new trends and consumer demands, thanks to its characteristics. These wines are innovative and versatile, inspired by our passion for the wine world. Stand out as being the only wines in this market segment have as many as three - six months of barrel aging, in addition to use for processing the latest technologies.

The close cooperation with countries trendsetters allow us to anticipate trends with new products that respond to both the demand from new consumers as the most traditional and classic.

The Cosecheros y Criadores , located in the Rioja region, is elaborating country wines from Castilla (Vino de la Tierra de Castilla) at the cutting edge of the latest wine trends, thanks to exceptional conditions due to the Vineyards' altitude, climate, rocky soils and weather. The winery makes versatile wines showing their own personality, thanks to the "terroir" and chosen grapes to elaborate our HIMALAYA wines.

Himalaya Wines

Himalaya Wines have been produced especially to complement Asian cuisines, in the last few years we have been researching and looking for affordable Asian Wines, with qualities that can be appreciated and perfectly complement Asian authentic food dishes, with no surprise we found very little in the market, after a 12 months project experimenting with grapes, spices and aromas, Global Wines Direct are the first UK Company producing wines internationally, especially complementing Asian authentic food dishes.

The brand name Himalaya comes from the Sanskrit language meaning "The house of snow" Nepal has many famous landmarks, most popular one is the mountain range, where it holds one of the Highest mountain in the world, Mount Everest which represent highest spot on earth, Himalaya is truly one of the wonders of the world.
