

WEBER UK LIMITED

Quality range of Air Hydraulic Bottle Jacks designed specifically for the Commercial Duty Tyre & Garage Industries

The MGH series models are fitted with a manual pump and manual release so that they can be operated as a portable bottle jack.

The 30 Tonne model is supplied in a metal box.

Both models have a fast load approach screw and a high performance pneumatic pump with remote control drive.

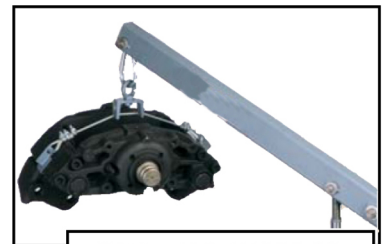

All models are fitted with carrying handle, a safety overload valve, hydraulic stroke limitation and the pistons are treated to ensure a long working life.
