ABOUT US

DIAMOND DESIGN this is all about design furniture and colours that make up a perfectly finished interior. If you need someone to bounce your ideas off, our interior designers are at hand. They are able to complete any scheme, ranging from one piece of furniture, hotel rooms and apartments to restaurants and common spaces.

We have developed a unique relationship with the hotel industry and its partners, such as designers and architects. We really understand hotel business - that's why we offer innovative and flexible solutions. Our products and services meet the industry's stringent requirements for design, durability with respect for delivery deadlines.

DIAMOND DESIGN is a part of a group of production, trade and service companies specializing in furniture production and installment. The production activity is carried out in numerous modern factories. In total, about 9 thousand people work in the Group's subsidiary and cooperating firms.

For the manufacturing process we use high-performance programmable machines and other precision machines. Our assembly lines are specifically prepared for the production of high quality furniture. We have many years of experience and the qualified personnel which guarantees first-class quality products. Our own monitoring system ensures stable, constant quality and the continuity of the production process.

REMARKABLE INTERIORS

Our design is beyond the brief influence of fashion. We are attuned to the contemporary lifestyle acclaimed by our Clients as quintessential in making remarkable and timeless interiors.

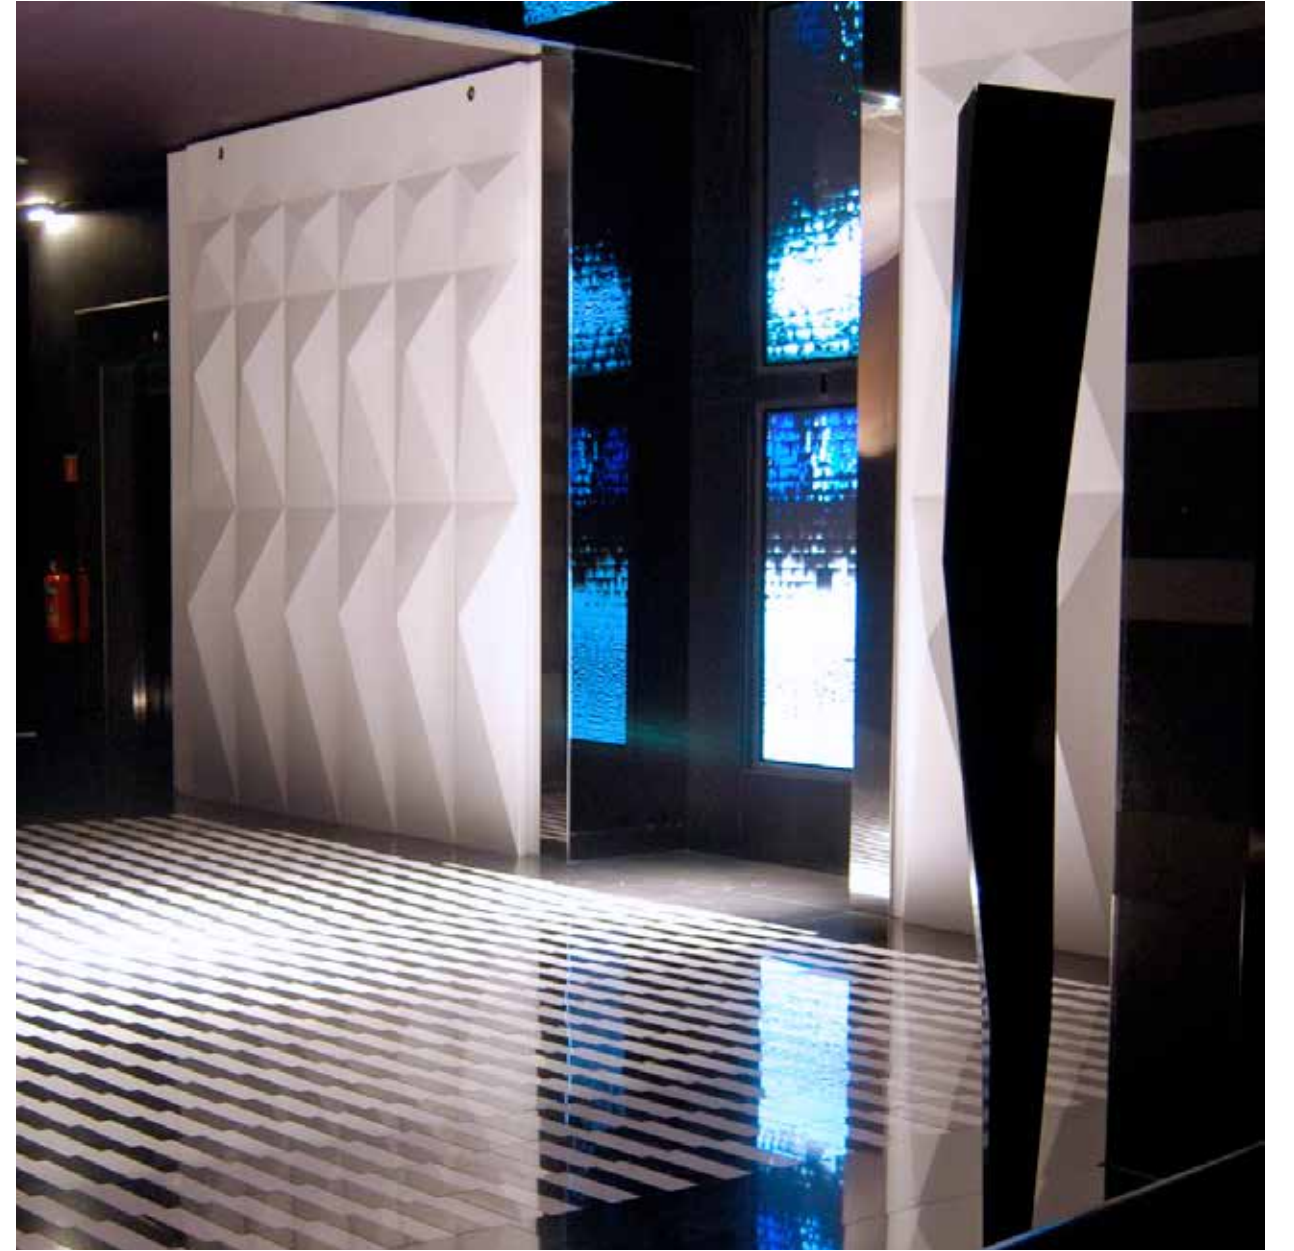

Great attention to detail is our own benchmark and we make it crucial to the making process. Marriage of a form and a function is essential and it is clearly demonstrated by both an exclusive detail as well as the use of materials.

While it is the look that attracts first of all, the furniture has to work and function well to be fully enjoyed. It is the detail and style that adds up to a design style that will ultimately satisfy even a very demanding Client.
