

**INNOVATION
HAPPENS HERE.**

**REGIONAL ECONOMIC
FORECAST & INNOVATION**

**EXPO
2019**

DECEMBER 5
GREAT WOLF LODGE

Welcome to the 2019 Pacific Mountain Region Innovation Expo and Forecast Conference. On behalf of the boards of directors of our five economic development groups, congratulations on taking the time from your busy schedules to attend this event! Our collective leadership team has planned exhaustively to ensure that the materials, discussions and presentations made today will stay with you as a tool to enable continued success in the years to come.

Our economic development agencies and organizations have joined with critical partners such as the Pacific Mountain Workforce Development Council, to demonstrate that economic development takes partnership, vision, and a commitment to excellence. We have combined the notion of innovation and vision as being at the core of our work. We are collectively committed to retaining our critical employers, recruiting new investment into our region, and expanding market opportunities that will positively impact our region's wealth and quality of life. That regional approach, applied locally has a significant impact upon how we work together – and how we project to the rest of Washington State that our region is a region of choice, opportunity, and innovation. Last year's Expo theme was looking at innovation with a futurist lens. This year's effort is squarely focused on the notion that through innovation, our prosperity resides in an understanding of how innovation impacts how we push forward an agenda.

“Innovation distinguishes between a leader and a follower.” – Steve Jobs

When applied to economic development, this quote, speaks to how each economic development group, working independently provides critical support and force for growing the local economy. Applied regionally, it projects a strength of market, opportunities, and possibilities.

It is our hope that by attending this conference, you will gain a deeper understanding of new endeavors, new partnerships, new markets, and the opportunities to continue to build a strong foundation from which our communities, residents and businesses will thrive.

We all wish you a most prosperous 2020!

KEYNOTE SPEAKER

DR. BILL CONERLY CONERLY CONSULTING, LLC

Business leaders who are uncertain about the future turn to Dr. Bill Conerly for guidance in building resilient plans that generate profits in any economy. He has a Ph.D. in economics from Duke University and over 30 years' experience helping companies adapt to changing economic conditions. Dr. Conerly is a contributor to Forbes.com and the author of two books, including *The Flexible Stance*, which explains how to run your business if you don't believe the economist's forecast. He has spoken to business audiences from Moscow, Idaho to Moscow, Russia, and has been quoted in *The Wall Street Journal* and *Fortune Magazine*. He is the father of two sons and the husband of one wife. In his spare time, he races sailboats, trying to perfect an obsolete method of transportation.

Turns out, you're
not the only one
that cares about
your business.

Our lenders are here for the business community.

At Columbia Bank, we put relationships first, including when it comes to business. As your local lender, we work closely with you to ensure you get the best loan for your unique needs. And we make decisions right here, so you can get back to business faster. Because being your financial partner means that business is always personal.
