

**FitzKidz<sup>®</sup>**

# Explorers

Introducing the latest addition to the FitzKidz range of therapeutic footwear for children and young adults.

Explorers is a new range of 6 shoe designs, combining high street fashion with the same high standards of stability and control.

### Standard Specifications

Stability <b>HS</b> HIGH STABILITY	Last <b>R</b> REHABILITATION	Width XN - Extra Narrow N - Narrow M - Medium W - Wide XW - Extra Wide	Upper Height <b>H3</b> HIGH	Opening LOW OPENING	Fastening EYELET	Stiffener <b>HS</b> HIGH STIFFENER	Shank MID FOOT SHANK	Sole SNEAKER SOLE
--	------------------------------------	---	-----------------------------------	------------------------	---------------------	--	-------------------------	----------------------

### Available in EU sizes 19-40

Low opening allows ease of access. The sneaker sole unit is stitched to the upper for durability however, provides a lightweight more flexible option. Where increased stiffness is required adaptations can be made. Despite the high street appearance of this boot the height and stiffener options provide the ideal combination of design with the desired control.

- Fun, casual design
- On trend
- Water resistant fabric
