Did you know?

Most UK motor insurers will not guarantee to fit Genuine Vauxhall parts, or use a Vauxhall Approved Bodyshop to repair your vehicle. This could compromise the safety standards and future residual value of your Vauxhall.

When you call Vauxhall Accident Management, we'll exercise your legal right to have your vehicle repaired at a Vauxhall Approved Bodyshop. Using only Genuine Vauxhall parts and repair methods, this helps to protect your Vauxhall's original driving pleasure, safety rating and residual value.

Research of UK motor insurers' policy wordings as at April 2010 found that the vast majority of well-known motor insurance companies do NOT guarantee the benefits shown above. *With most other motor insurers, if you insist that your Vauxhall is repaired at a Vauxhall Approved Bodyshop instead of your insurer's approved repairer, they reserve the right in your policy agreement to withdraw the provision of a courtesy car and in most cases will exercise this.
