COMPATIBLE TONER CARTRIDGES

The smart cartridge, available exclusively at

800.223.8890 | [www.coastcoast.com](http://www.coastcoast.com)

## Our Commitment to Your Satisfaction

Our commitment is to you, our customer, to provide the best possible service at the most enticing price. Coast to Coast is based on three fundamental principles: honesty and integrity, superior customer service and the highest environmental and quality guarantee.

Our high ethical values begin with our products going through rigorous compliance tests. We have multiple in-process Quality Assurance check points along with a final triple QA inspection. Each toner cartridge is assigned a unique barcode and is print tested and verified before shipping. Also, we continuously life test using simulated shipping and environmental conditions.

When you partner with Coast to Coast, your customized service will be provided by your personal account manager. Our expert staff continuously attends ongoing training and will work with you to analyze your needs and offer you a variety of solutions.

Our Diamond Series™ compatible cartridges are environmentally friendly. Each Diamond Series™ toner cartridge saves 3.5 quarts of oil and eliminates 3.5 lbs. of plastics and metals from potentially entering our landfills. By partnering with Coast to Coast, you are helping save the planet, beginning with the first page you print!

Diamond Series Overview	23

All cartridges are covered by a 100% manufacturer's warranty. The cartridges are guaranteed to be free from defects in both material and workmanship from the date of manufacture for a period of two years.

Our cartridge technology involves a state-of-the-art manufacturing process which includes graphic quality toner and OPC drums. The result is a cartridge that produces darker prints and sharper graphics to meet the highest standards of each and every customer.

All cartridges are quality tested during the manufacturing process. Additionally, they are post-tested once assembly is completed.

- Stock fewer models and change fewer cartridges
- Guaranteed yield based on ISO 19752 testing
- Lower your cost -per-page printing solutions

## Testimonial

"I love your quick response to our orders, your lack of "neediness" and your watchful eye over our account. You are in a very select group of suppliers that I simply have zero problems with and I wanted to let you know that I appreciate your personal efforts very much. It is your personal touch that keeps things running so smoothly, efficiently and maintenance free."

*Very Gratefully, John M. Sage - Beckman Coulter, Inc.*

### Testimonial

"The Diamond Series cartridges have been a good value for us, improving our bottom line and saving me on my cost per page.

I would highly recommend the Coast to Coast sales team to any franchisee or anyone that would be in need of toner supplies."

*James D. Blankenship, Owner, CTS Tax, Inc.*

### Coast to Coast MICR

Our manufacturer is the only aftermarket company who is an official member of the Accredited Standards Committee X9 (ASC X9).

We are your MICR experts.

### Testimonial

“Coast to Coast Computer Products is my one stop shop for great service and quality computer and office products. My rep. Terri Redondo, is always on hand to field questions, get quotes and resolve any issues that may arise. Their prices are competitive and product selections is abundant.”

- Clinton Rowe

### Testimonial

“We are not a huge company and do not actually buy all that much but are treated like we are just the opposite. I love that in a company. We are a service company as well and treat our small customers the same as our big ones.”

- Connie Stanifer, Automatic Door Systems

### Testimonial

“I wanted to thank you so much for all of your help. We have always received the best quality and service from Coast to Coast and I just wanted to thank you.”

- Hazel Kean, Morgan Mredith & Associates

IBM

## Environmental Impact Perspective

When you buy Coast to Coast Diamond Series toner cartridges, you help the environment with every page you print. The plastic in a laser cartridge takes 3.5 quarts of oil to produce. Coast to Coast eliminates more than 4.6 million quarts of oil from being used annually!

**THINK GREEN.  
SAVE GREEN.  
PRINT GREEN.**

At Coast to Coast, scrap metals, plastics, paper and cardboard are locally recycled into everyday consumer items.

The ISO 14001 environmental management system (EMS) helps organizations minimize how their operations negatively affect the environment. It specifies the requirements for establishing an environmental policy, determining environmental impact, planning, implementation as well as documented continuous improvement.

By reusing certain non-wearing metal components and plastic parts, Coast to Coast is able to offer a product that is both economical and ecological. Each Diamond Series™ toner cartridge saves 3.5 quarts of oil and reuses 3.5 pounds of plastics and metals that would otherwise be entering our landfills.<sup>1</sup> Reduce reuse and recycle. Help save the planet with every page you print.

The ISO 19798 standard is a standardized page yield test for color laser printer cartridges. The test is done with a minimum of 12 cartridges (three sets of CMYK) tested on three separate printers with a standard set of five different print/test pages under specific environmental conditions and default printer settings. Coast to Coast products will meet or exceed OEM yield based upon ISO 19798 test methodologies.

The ISO 19752 standard is a standardized page yield test for monochrome (b/w) laser printer cartridges. The test is done with a minimum of nine cartridges tested on three separate printers with a standard print/test page under specific environmental conditions and printer settings. Coast to Coast monochrome cartridges will meet or exceed OEM yield based on ISO 19752 test methodologies.

# Coast to Coast and the Environment

## Reduce Your Carbon Footprint with Coast to Coast

More than 300 million empty toner cartridges end up in our landfills each year. The plastic in each toner cartridge takes 3.5 quarts of oil to produce and the average toner cartridge weighs 3.5-4 pounds.<sup>1</sup> Even worse, many empty cartridges end up in cities like Guiyu, China where they are burned off or dissolved with hazardous chemicals, which contaminate the local air, soil and groundwater. According to the Basel Action Network, one in ten children in Guiyu have birth defects due to this type of e-waste pollution.

Although our industry revolves around remanufacturing and recycling, here are some specific things that Coast to Coast is doing to reduce our carbon footprint:

## 2012 Milestones

- Changed packaging vendors
- Reduced cartridge packaging by 30%
- Packaging became SFI Certified
- Became an EPA Waste Wise Partner
- CalRecycle Waste Reduction Award Nominee
- Recycled 1.5 million cartridges
- Became REACH Certified
- Recycled 1.8 million lbs. of manufacturing scrap
- Incorporation of Air Cell bags which reduce packing volume by 80%

EPA WasteWise is a voluntary partnership program that helps organizations eliminate costly waste through waste reduction -benefiting the environment.

WRAP is a waste reduction program administered by the California Department of Resources Recycling and Recovery. Recognizing businesses for outstanding waste reduction efforts in the community.

REACH is a European Community Regulation on chemicals and their safe use. It is the strictest law to date regulating chemical substances.

SFI® (Sustainable Forestry Initiative®) label, featured on CTC packaging is a sign you are buying wood and paper products from a responsible source, backed by a rigorous, third-party certification audit.

**Think green. Save green. Print smart.**

<sup>1</sup>. Re-charger Magazine

\* Post-consumer recycled content per cartridge varies based on toner load, condition of cartridge components as well as by technology.

Diamond Series™ toner cartridges, exclusive to Coast to Coast, are manufactured in the USA under the most stringent manufacturing conditions, using more than 34 patents and patent-pending technologies. Our manufacturing facility is the largest in the United States and our products have been awarded “Best Quality” for the past six consecutive years.

Diamond Series™ toner and cartridges are manufactured in the USA under ISO 9001, STMC, X9 and other best practice manufacturing specifications. In addition, our manufacturing facility is ISO 1401 Certified, highlighting our commitment to the environment. It is the only dual ISO certified (ISO 9001/1401) facility in the United States. Diamond Series™ cartridge yields are benchmarked against OEM specifications and are also certified by ISO 19752 and ISO 19798 testing standards (the same standards used by your printer manufacturer).
