2011

**wine-bag**
the art of packaging food and wine

Get personal

More and more of our customers are taking advantage of the personalisation services we offer to make the gift they put in our packaging so much more memorable. Whether it's our stylish self-adhesive labels (ideal for personalising small quantities with your own printer), a straight forward embossed logo or a completely customised design to suit your needs we at WINE BAG are able to give you the service you need. You can find more information on this on page 40/41 of our catalogue.

Environmental Policy:

None of us are innocent – we are all leaving a carbon footprint on our planet that will not just wash away with the next rainfall – and it is an issue that affects our business also. Here are a few notes about the materials we use in our products:
Paper / Cardboard: Where possible recycled raw materials are used, however the quality standards we wish to offer do not always allow this. Most of our gift boxes come flat-packed to save on energy spent on transport, also most are held together when assembled just by folding techniques, which means we can often dispense with the potentially environmentally problematic glue.

Non-woven: Non-woven is a synthetic material that can be 100% recycled. The bags made from it are durable and ideally suited for re-use over a long time-span. The production has no by products of poisonous gas, waste oil or effluents.

There is no complacency from us on this issue. We are not where we want to be, but we are heading in the right direction. We hope to continue with ideas like this that are simple, but effective – it doesn't always have to be "Rocket Science" to make progress on environmental issues – and we ask you, our customers, to support us in this.

Happy giving!

Matching gift tags are available for almost all Scala colours. We also offer a range of attractive attachment bands (see page 58). Ask your contact for more details.

Our luxury satin inlays can be combined with all Scala "Strong boxes" (the postable 2 and 3 b boxes – page 25).

SCALA SAND

As with sand on the beach, you only notice that it's not all the same colour when you take a closer look. The combination of the speckled colouring and the textured Scala surface makes a particularly attractive packaging.

info

SCALA GREEN

Carry boxes in a rich forest green and the Scala textured surface. This new model is flat topped (always helpful when you're stacking), and we have offset the "squareness" of the box with the curve of the window.

Matching gift tags are available for most Scala colours. With the exception of green and red these can be purchased to suit your boxes. In Bordeaux and dark Blue we even offer a choice of designs (grapes or Christmas tree)

Practical: for swiftly attaching gift cards or other decoration take a look at our elastic loops on page 59, available in gold or silver.

Our luxury satin inlays can be combined with all Scala "Strong boxes" (the postable 2 and 3 bottle boxes – page 25).

Products in the scala series can be personalised with an embossing of your company logo. Further details on pages 40/41.
