Mid Devon District
Council Approved

Established in February 2001 and based in Cullompton close to junction 28 off the M5 we fabricate and weld products in mild steel, stainless steel and aluminium, both in the workshop and on site.

One off creations, bespoke and unusual work can be produced with speed and efficiency.

In the last few years we have worked in a wide range of industries such as building & construction, wheelchairs for disabled, heritage interpretation & tourist development, local councils, cricket & football clubs, pubs & hotels, communication, architectural restoration, machinery & plant, warehousing, storage and security.

We offer a fast personal service that enables businesses both large and small to receive a high quality service that is both friendly and efficient.

Our projects have included:

- Gates, Railings, Safety Hand Rails
- Security Products
- Catering Tables, trolleys, shelving and hygienic surfaces
- Stainless Steel Tanks
- Wheelchair parts
- Display frames for signs
- Architectural items, Staircases, Walkways & Fire Escapes
- Protective ram raid barriers
- Church Restoration.
