

Custom solution for heating problems in production process

The activity is divided into two business areas:

ELECTRIC HEAT EXCHANGERS

Electric heat exchangers, flange-mounted electric heating elements, air and technical gases heating coils, temperature control skids, electrical panels.

INDUSTRIAL OVENS

Heating cabinets for drums and tanks, drying ovens, polymerization ovens, heat treatment ovens, special ovens.

INDUSTRIAL SECTORS

- Oil & Gas
- Energy
- Food industry
- Chemical
- Pharmaceutical
- Marine
- Petrochemical
- Reserch centre
- Processing plants

PRODUCT APPLICATIONS

- Fuel gas
- Gas
- Solvent
- Water
- Hydrocarbon liquids
- Molten salt
- Crude Oil
- Fuel oils
- HVAC

AMARC was founded in 1954 and, thanks to an important know-how developed over decades of business, offers advanced solutions, characterized by a high-level engineering and technology, to ensure functionality and reliability, security and convenience of the products.

AMARC creates 'turnkey' solutions alongside its customers from the design to the final inspection and after-sales services. For this, each system is designed to meet specific end-user requirements, presenting design features that ensure maximum flexibility and continuity of production.

The machines and all their components are designed and manufactured according to strict technical and quality standards, according to the Standard EU Directives and the product Technical Guidelines listed below:

UNI EN ISO 9001:2008
ATEX-EX 94/9/EC
PED 97/23/EC
ASME-'U'

MAJOR CUSTOMERS

- 3M
- Bayer
- Estee Lauder
- Ptt Global Chemical plc
- Abb
- Bp
- Exxon Chemical
- Procter & Gamble
- Alfa Laval
- Clyde Bergemann
- Idesa
- Saipem
- Alstom Power
- Danieli
- Italcementi
- Sanofi-Aventis
- Ansaldo Energia
- Edison
- Linde Gas
- Sika
- Avon Cosmetics
- Enel
- Mapei
- Teva
- Basell
- Eni Power
- Neste Oil
- Uop a Honeywell Company

AMARC is an Italian company with a strong commitment to internationalization, which is reflected in the continuous search for new markets, with the goal of expansion and development of sales networks abroad.

This is why AMARC works for the continuous improvement of product quality and to obtain product and process certifications increasingly targeted to the specific needs of the different markets.
