

Nitrate treatment for Triple R Mutual Water Company, Springville, Central California

INDUSTRY

Water utilities industry

LOCATION

California USA

PROJECT

Treatment of nitrates using IX-N™ system for Triple R Mutual Water Company

In early 2015, the beautiful town of Springville in California's central valley turned to Ionex SG to treat its water system for nitrates. The team mobilized fast to deploy our IX-N™ system in this vibrant rural community.

The below images show the finished installation.
