

## EC DECLARATION OF CONFORMITY

Apollo Flowmeters is the designer, manufacturer and distributor of a range of

Flow Meters for in line mounting within pipelines. These comprise of a flanged, screwed or wafer body mounted such that the flow within the pipeline can be measured using appropriate electronic instrumentation.

All our flow meters up to and including a nominal size of 25mm are classified as SEP Sound Engineering Practice under Article 3 Section 1.3 (a) (Annex II Table 6) of the Pressure Equipment Directive 97/23/EC. Under the directive they should not be CE marked. Manufacture is covered by Module A.
