Top Spin – Cable Management System

Our cable management system consists of a cable spine element, desktop adaptor with strain relief and floor adaptor with integrated metal weight.

The system ensures visually attractive, yet protected, vertical supply of cables from floor sockets to any desktop height.

The metal weight inside the floor adaptor ensures that the adaptor remains stable on the floor.

The standard design with 15 spine elements is sufficient for a table height of 720mm.

Due to the flexible suspension, the maximum achievable height in the standard version is 815mm.

The Top - Spin cable management system is available as a set.
Consists of: 1 unit desk top adaptor, 1 unit floor adaptor, 15 units cable spine element
Available in Black (40.4879.0019) or Silver (40.4879.0001)
