

Cape Cod

Finished Wood Siding

*Warmth, tradition
and permanence*

Nothing makes your home look more welcoming and comfortable than Cape Cod Finished Wood Siding.

Wood siding engineered by nature.

Enjoy the traditional esthetics of real wood siding combined with durability and strength. Nothing influences the impression your home makes more than its exterior finish and natural wood siding is the preferred choice.

Now you can enjoy the warmth and character of Western Canadian Lodgepole Pine with a factory applied, low maintenance finish. We carefully kiln dry the wood, then apply a uniform 100% acrylic coating that offers maximum protection and adhesion not attainable with field applied paint. Our factory applied two-coat process is backed by a 15 year limited warranty against peeling, chalking and blistering and is available in the colour of your choice.

For your new home or renovation project choose Cape Cod Finished Wood Siding.

Finished Wood Siding

Let our colours inspire you.

From traditional favourites that stand the test of time, to today's current trends, our colour experts will do the hard work for you. All you need to do is choose!

Let your imagination go wild.

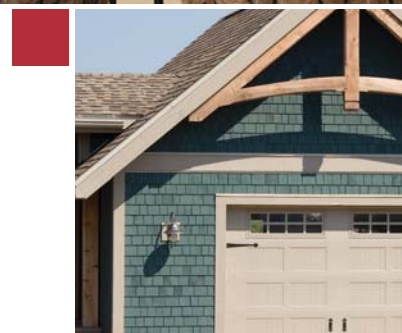

Our designers have selected a wide range of standard colours based on current trends and traditional favourites. If you have something specific in mind, our colour laboratory is fitted with the best technology for capturing your inspiration and ensuring it can be reproduced correctly, every time. Bring us the colour that will bring your home to life. You will receive a colour sample so you can see exactly how your siding colour choice will look on your home.

Your home is your canvas.

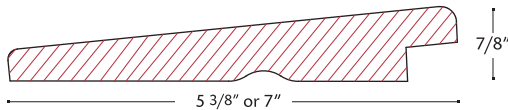

An important artistic medium for centuries, wood is beautiful and versatile. Cape Cod offers a wide range of siding options to complement your home's design, reflecting your lifestyle and taste. From traditional horizontal rabbetted bevel, to vertical board and batten or a sleek contemporary channel, Cape Cod gives you artistic rein with siding and trim profiles that will add distinctive architectural detail to your home.
