Asia's one-stop food service partner

COMPANY PROFILE

Asia's one-stop food service partner
Agent, Direct Distributor and Stockist

Sia Huat is Southeast Asia's leading agent and direct distributor for an extensive range of foodservice products and equipment. Together with our house brands of tableware and kitchenware, there is something to suit every budget and need.

Sia Huat achieves economies of scale by selling across regions and market segments. Our customer-centric approach is supported by a 40,000 square feet warehouse, 10,000 square feet showroom, large scale concept store and overseas office.

Our Philosophy

Creating win-win partnerships

In a vibrant and often demanding foodservice industry, we aim to deliver more than quality products, as well as provide real and distinctive value through affordable pricing, responsiveness, convenience, vast product choices, ready stock, expertise and reliability.

Sia Huat's philosophy is to always create win-win partnerships with our customers and suppliers. As an essential link, our mission is to ensure customers get the best-fit for their needs and supplier grow their brand.

Customer Focus

Provide more than foodservice supplies

1982

Chop Sia Huat was incorporated as Sia Huat Private Limited with CB as the Managing Director and Katherine as the Executive Director. It was also the beginning of an era where Sia Huat obtained exclusive distribution rights to many established brands in Singapore, Indonesia and Malaysia. Our strong relationships with long-standing partners and renowned brands, such as Zebra and Nikko, have continued to this day.

2000

With the booming business, the Temple Street store soon expanded to a double storey outlet, now stretched over three shops units. The following year, the store underwent a revamp to enhance customers' shopping experience. The bigger retail space also allowed a wider range of products to be showcased. The overhaul proved to be an immense success, with sales growth reaching a new high.

1959

Founded in 1959, Mr Tan Chah Sia, Chop Sia Huat started out as a household goods retailer in Singapore's Chinatown district. Behind this modest shop front, a four-man team ran the business selling kitchenware and household products.

1995

In 1995, Sia Huat established her corporate office and warehouse in a building at 20 Pandan Road, housing over 200 employees and more than 100 brands in its stable.

SIA HUAT'S MILESTONES >>

A snapshot of the company's achievements since its establishment

1985

Under the sibling's leadership, the family business flourished. Following the incorporation of Chop Sia Huat as Sia Huat Pte Limited, the retail shop grew from a single leased unit to a privately owned outfit double in size.

1998

Sia Huat began participating in major trade shows around the world, such as the 1998 Food and Hotel Asia Exhibition, to connect with key prospects in the food and hospitality industries. In May 1998, a wholly-owned subsidiary, Hocatsu (M) Sdn Bhd, was set up to gain a foothold in the growing kitchenware market in Malaysia. With this increased exposure, Sia Huat quickly made a name for itself as Southeast Asia's leading agent, distributor and stockist in foodservice products and equipment.

1967

Mr C.B. Tan, the founder's son, was roped in to steer the company's future direction. Armed with a keen sense of business, C.B saw an opportunity to expand the business by supplying kitchenware to the hospitality industry. His younger sister, Katherine Tan, later joined him in executing his vision. Together, they successfully secured their first hotel deal with Shangri-La Singapore in the 1980s.

1990

Sia Huat successfully secured major contracts with various hotels, retailers and F&B establishments, including the newly built Singapore International Convention & Exhibition Centre.

2009

Sia Huat's Managing Director Mr C.B. Tan receiving the award from Ms Lim Hwee Hua (then Minister in the Prime Minister's Office) at the Singapore Prestige Brand Award held at Ritz Carlton Millenia Hotel on 10th December 2009. In recognition of outstanding achievement in branding, Sia Huat was presented with the Singapore Prestige Brand Award (Heritage Brands category, for brands established for more than 25 years).

2018

ToTT relocated its Sime Darby Center Store to Century Square. The new store is over 7000 Sq Ft. The new location facilitates to serve a new group of customers.

2013

At the 2012/2013 Global Innovation Award (GIA), TOTT was honoured with a prestigious National win, alongside 22 other winners each representing a different country, beating some of the industry's best in housewares retail and design. The GIA is organised by the International Housewares Association in Chicago and is the most recognised awards program for homegoods retailer around the world. Building upon its increasing presence in the region, Hocatsu (M) Sdn Bhd, a subsidiary of Sia Huat, introduced a brand new 10,000 square feet concept showroom, retail space and office in Jalan 225, Petaling Jaya, Kuala Lumpur.

2005

To further enhance Sia Huat's supply chain performance, the 40,000 square feet warehouse was extensively renovated to include technological innovations such as computerised shipping and tracking to optimise productivity and inventory management.

2020

The new consolidated warehouse is 55,000 sq ft and will support our regular distribution, E-commerce and export sales.

2003

A brand new 10,000 square feet Corporate Showroom was launched at the Pandan Road building, providing a one-stop shopping solution for all needs.

2015

TOTT Store opened its second store. Centrally located at Suntec City, TOTT@Suntec 4,800 square feet houses an open concept hands-on cooking studio for up to 24 participants.

2006

With tremendous support from partners, and a rising reputation for product excellence and strong logistic capabilities, Sia Huat clinched a lucrative contract with flag carrier, Singapore Airlines, to supply customised luxury chinaware for her Business Class cabins. With daily flights to several international destinations, this effectively brought visibility of the Sia Huat brand to a global scale.

2010

Tools of the Trade (TOTT) store was launched in 2010 in response to a rapidly growing pool of quality-conscious and discerning end consumers. It quickly became a culinary paradise offering over 11,000 kitchen selections, event hosting, and cooking classes for aspiring home chefs. It also houses a bistro serving up a delectable selection of Asian and Western cuisine.

2019

PT Sia Huat Indonesia opened in Jakarta to better serve our customers in Indonesia.

DE BUYER - AFFINITY RANGE

The Affinity range uses an innovative ultra conductive single-piece multi-layer material (5 layers) on side and bottom. For even heat distribution, the 3 central layers of the Affinity material are made of aluminium. It heats up quickly, thereby preserving vitamins, cooking evenly and providing a perfect heating circuit. This is essential for slow-cooked dishes and sauces. The cast stainless steel handles are firmly fastened with rivets. The products are solid and undeformable. Affinity products are suitable for any cook top, including induction.

STAINLESS STEEL GASTRONORM PANS - EUROPEAN STYLE

SAFICO Gastronorm Pans are constructed with 18/8 stainless steel to EN 361 Standard and meets all professional needs. Double-reinforced corners and edges reduce distortion and prevent the pans from jamming together during storage. Sits firmly over steam table wells to minimise heat loss. NSF Listed.

For Straight & Serrated Knives

CHEF'S CHOICE Electric Diamond Hone Sharpener 3 Stage with Stainless Steel Cover

3-stage commercial sharpener designed to sharpen both straight-edge and serrated knives. Stages 1 and 2 use 100% diamond abrasive disks and Stage 3 uses ultra-fine, proprietary stropping disks to create razor sharp, arch-shaped edges that stay sharp longer. Precision angle guides eliminate all guesswork and the detachable sharpening module is commercial dishwasher safe and replaceable. NSF certified.

Product Code	Elec. Spec.
03-002-00628	230V / 60Hz / 175W

CHEF'S CHOICE Electric Diamond Hone Sharpener Angle Select with White Cover 3 Stage

Designed to sharpen Asian, European and American style knives, you can restore and recreate both a 15 degree angle on your Asian style knives and a 20 degree angle on your European and American style cutlery. It will quickly and easily sharpen virtually all quality cutlery including American, European or Asian style household knives; fine edge or serrated blades; Santoku and traditional Japanese style single bevel edges, including the thicker Deba style blades; sports knives and pocket knives.

Product Code	Elec. Spec.
03-002-00629	230V / 50Hz / 75W

CHEF'S CHOICE Commercial Electric 2-Stage Diamond Knife Sharpener

This compact professional electric 2-stage knife sharpener sharpens both straight edge and serrated knives to better than factory edges, in just minutes. 2-stage sharpening provides "Gothic Arch" shaped edges which are stronger and longer lasting than hollow ground or conventional 'V' edges.

Product Code	Elec. Spec.
03-002-00630	230V / 50Hz / 75W

CHEF'S CHOICE Hybrid Sharpener (Manual / Electric) Sharpener 2 Stage

Effectively combines electric and manual advanced sharpening technology for an extremely sharp, burr-free edge with lots of bite. Using Chef's Choice signature 100% diamond abrasives in both stages, Stage 1 is electric for sharpening and Stage 2 is manual for honing and resharpening.

Product Code	Elec. Spec.
03-002-00631	230V / 50Hz / 40W

CHEF'S CHOICE Diamond Hone Knife Sharpener, 3 Stage

A perfect manual sharpener for those who own Asian and European/American style knives and want to quickly and easily apply a superior, shaving sharp edge! Sharpens all quality knives including straight edge household and kitchen knives, Santoku, sports and pocket knives, as well as serrated knives.

Product Code
03-002-00633

CHEF'S CHOICE Pronto Manual Diamond Hone Sharpener

Suitable for both straight and serrated edge knives. Uses 100% diamond abrasive wheels that sharpen simultaneously "into" and "out of" the knife edge for a superior burr-free edge with lots of bite.

ROBOT COUPE BLENDER & MIXER BLIXER

The Blixers® will easily realise your pureed, raw or cooked, semi-liquid, liquid or pasty meals. With their large capacity and leak proof lid, with built in scraper, these models make it simple to prepare all types of mixed and liquidized food, even for tube feeding.

A safety device fitted to the lid prevents access to moving blades and an integral motor braking device ensures operator safety. Any parts which come into contact with food can be easily removed and cleaned, in compliance with the strictest hygiene standards (NSF).

ROLLER GRILL DEEP FRYER

The cold zone enables you to fry successively in the same oil for French fries, fish, donuts, etc. The temperature of the oil at the bottom of the tank and above the resistance has a differential of 100°C. This cold zone at the bottom of the fryer consists of an automatic filtering of the oil by settling and decanting. This electric fryer range is equipped with a precise bulb-thermostat for the regulation of temperature (0-180°C) and with a double safety thermostat with positive cutoff. Both thermostats are in stainless steel. In the event of overheating or insufficient oil, the safety thermostat automatically stops the stainless steel fryer. After identifying the cause of the automatic shutdown, the safety thermostat must be reset by simply pressing a push button behind the stainless steel housing.

EASY & QUICK TO CLEAN

For A Sanitary Storage Area

- Shelf plates are easy to remove and run through the dishwasher.
- Smooth polypropylene surface quickly wipes clean.
- Spills clean quickly and easily, reducing the risk of cross-contamination.
- Camshelving® is weldless, so liquids and dirt cannot get inside crevices.

- Inhibits the growth of mold, fungus and bacteria.
- Camguard works continuously to suppress the growth of microbes between cleanings.
- All shelf plates are embedded with Camguard antimicrobial so it will not scrape off, wash off or wear out.

STRONG & DURABLE

For A Sanitary Storage Area

- Posts and traverses are the weight bearing components, constructed with a steel core and encapsulated by a thick polypropylene outer layer.
- Inner steel core ensures that Camshelving is strong, durable and stable.
- Thick, polypropylene outer layer will not chip, break or corrode.
- Post connectors provide exceptional cross stabilization.

Weight bearing components are made with a steel core.

Weight Bearing Capacity

	Single Unit - 4 Shelves	Single Unit - 4 Shelves	Dunnage Stand	Corner Unit	Mobile Unit
Traverse Length	610 to 1220mm	1370 to 1830mm	1300 to 1830mm	610 to 1220mm	610 to 1220mm
Weight Bearing Capacity Per Shelf	363kg	272kg	454kg	181kg	-
Weight Bearing Capacity Per Unit with 4 Shelves	1451kg	1089kg	-	726kg	340kg

Dunnage Stands are used only on the bottom shelf. Recommended for traverses 1370mm or longer.

Corner Connectors are recommended for use on traverses 1220mm or less.

Due to the weight bearing capacity of casters, maximum weight load on an entire Mobile Camshelving Unit is 340kg.

COMPONENTS

Camshelving is a modular system that allows the flexibility to assemble shelving to fit any size area. The key components, including posts, post connectors, traverses and shelf plates, are available in a variety of sizes.

They can be easily configured to custom build shelving to maximize storage space. Unique design elements such as shared posts and corner connectors simplify assembly and increase storage capacity.

Traverses

Traverses have a steel core with a polypropylene exterior to provide strength and durability. Traverses connect to the post by sliding on to the dovetail on the post.

Two traverses are needed to build one shelf, and they define the length of the unit.

Shelf Plates

Shelf Plates are made of polypropylene. Dishwasher safe.

SOLID

VENTED

Post Kit

Includes two Traverses and Shelf Plates to fit the length of the Traverses.

Posts For Stationary Unit

Posts have a steel core with polypropylene exterior to provide strength and durability.

Posts define the height of the shelving unit and are measured with the leveling foot fully engaged.

Post for Stationary unit

STATIONARY UNIT

Post Connectors

Post connectors hold two posts together and define the width of the unit. They are made of polypropylene and provide excellent cross stabilization.

MAXIMIZE SPACE UTILIZATION

Starter Units

- Available in stationary or mobile units.
- Starter units ship complete with two post kits, traverses and shelf plates to build an entire unit.
- Spills clean quickly and easily, reducing the risk of cross-contamination.
- Camshelving® is weldless, so liquids and dirt cannot get inside crevices.

Add-On Units

- Add-On units ship complete with one post kit, traverses and shelf plates to attach to an adjoining unit.
- The traverses on both the first and second unit share the middle post.
- No add-on clips or S-hooks required.
- There is no loss of weight bearing capacity when built in a straight line.

Corner Unit & U Shape Units

- Corner connectors can be used to build corner units and U Shape units.
- Traverses snap onto corner connectors just like they snap onto the dovetails of the posts.

Corner Connector Set

- Attaches a basic unit to a second unit at a 90° angle or to form a U shape.
- A set of corner connectors are needed for each shelf.

Mobile Units

- Mobile Camshelving units are built by using posts for mobile carts and inserting casters.
- Mobile units are not designed to serve as transport carts.

Mobile unit shown with optional fencing.

EASY TO ASSEMBLE & ADJUST

Build Any Configuration and Fit Any Size Area

- Create a space efficient layout for any area.
- Assembles in minutes, requiring only the use of a mallet.
- Shelves can be adjusted in 100mm increments without disassembling the entire unit.
- Two units can be connected together with shelves at alternating heights for maximum storage flexibility
- Corners Connectors attach units to create a 90° angle or U shape.

EASY TO ADJUST!

Shelves can be adjusted in 100mm increments, without disassembling the unit.

EASY TO ASSEMBLE!

Traverses slide easily down onto dovetail

- Mobile units are not designed to serve as transport carts.

- Mobile Camshelving units are built by using posts for mobile carts and inserting casters.
