

Location and Parking Map:

Key: P = public parking lots = street parking

The primary entrance is located right off of Main Street with several public parking lots and plentiful street parking nearby. For those wanting additional confidentiality, you are more than welcome to use our private entrance accessed through the alleyway in the back of the building. (It is not a pretty entrance but if you don't mind, neither do we!) As always, do not hesitate to contact your therapist or Cheryl Denz, President, with any questions. (630-587-3777 x1) See you there!
