## **Supply Chain Practitioner**

(Fast Moving Consumer Goods - FMCG) Level 3 Apprenticeship Standard

FMCG Supply Chain Practitioners will work in one or more supply chain functions. They will forecast and plan customer demand; liaise with suppliers around production schedules; process orders as a Customer Service Operative and work with hauliers and distributors in areas of transport planning.

With a comprehensive understanding of the entire supply chain, they provide an impact in a responsible way on each function and strive to deliver the best value for their business and customer.

With a high number of interactions both within and outside the business, they need strong relationship building, influencing, stakeholder management and communication skills. They will also need sound analytical, information technology and numeracy skills, with an ability to work in a fast-paced environment with frequently changing requirements.
