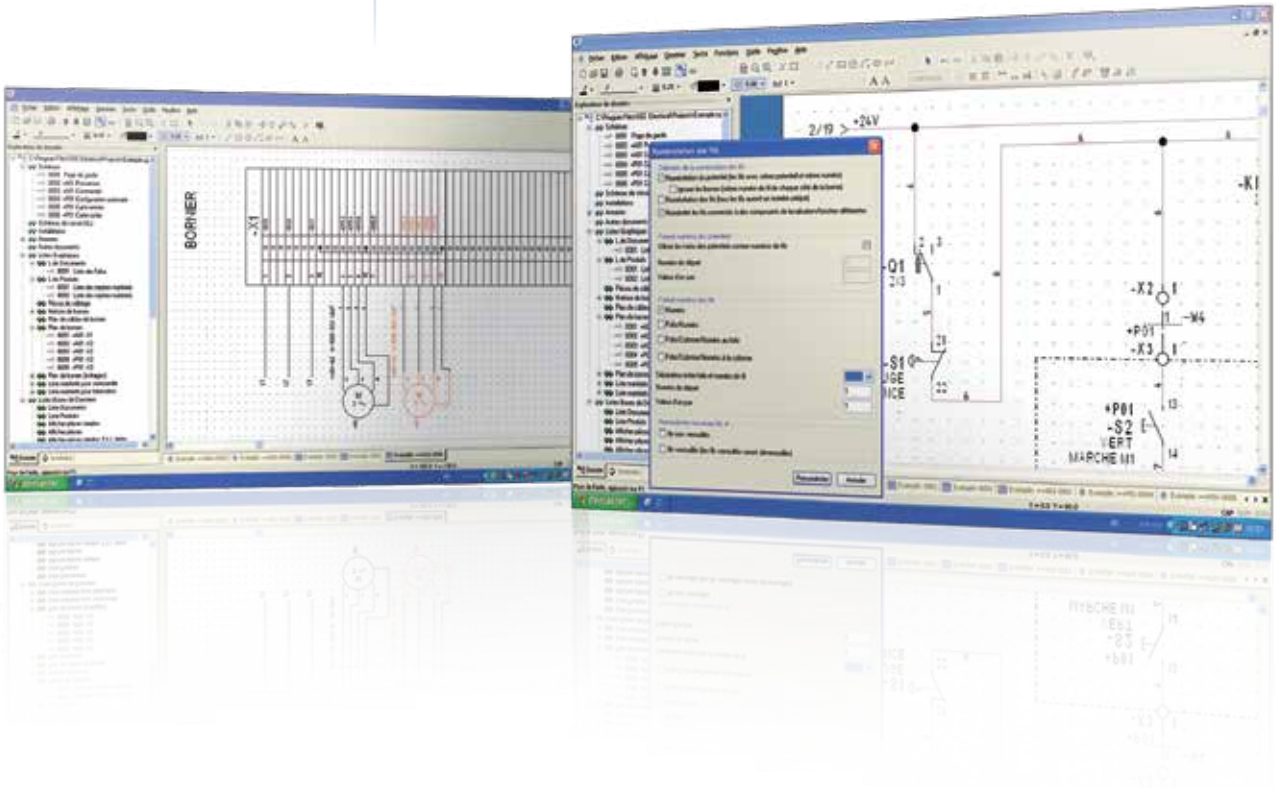
Shaping the Future
of the Electrical
PLM and CAD

The WEIDMÜLLER IGE+XAO partnership :

> “An integrated solution to increase productivity and quality ”



When good enough just isn’t good enough

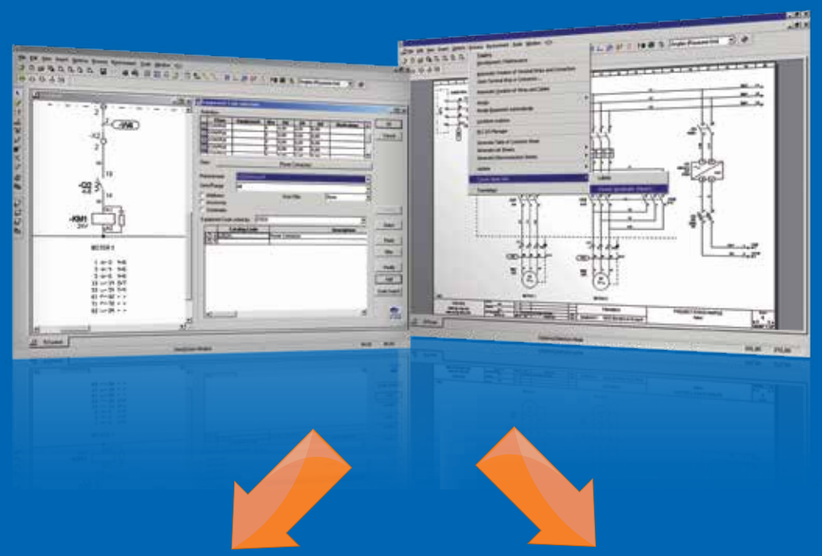
Weidmüller

The **IGE+XAO** and **WEIDMÜLLER** partnership will help increase productivity and quality when creating electrical schematics, by :

- Integrating the Weidmüller's product database into IGE+XAO's SEE Electrical Expert and SEE Electrical/CADdy++.
- Generating and printing labels with data extracted directly from SEE Electrical Expert and SEE Electrical/CADdy++.

Easy symbols referencing during the design stage.

SEE Electrical Expert and **SEE Electrical/CADdy++** include several thousand **Weidmüller**'s symbols that makes the creation of electrical schematics extremely easy. With a few clicks, the design engineer can assign **Weidmüller**'s references to the symbols used in the Electrical CAD package.

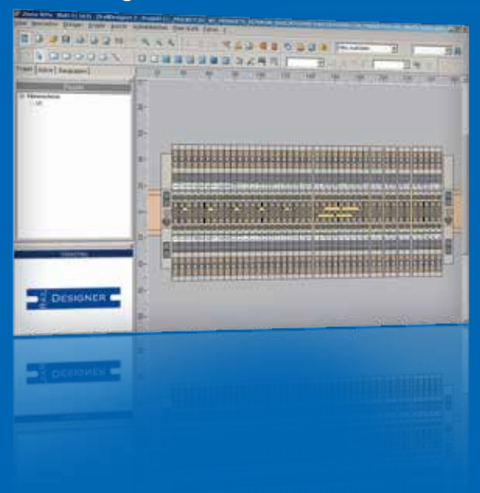


Increase **Productivity**

Increase

Once the electrical schematic is created in **SEE Electrical Expert** or **SEE Electrical/CADdy++** then it is easy to export and to import into **Weidmüller's RailDesigner®**.
The new version of **RailDesigner®** is a time-saving program which makes it much easier for you to select, plan and order mounting rails and enclosures with a high level of precision. **RailDesigner®** will take care of everything else for you.
With its integrated interface, inputting data from your CAE system is easier than ever. That means maximum convenience for you: just import your data and you're done! The information terminal data, bridges, markers and accessories are transferred during data exchange with your CAE programs.

RailDesigner®



M-Print® PRO

PrintJet PRO

Easy label generation and printing

Once the electrical schematic is created in **SEE Electrical Expert** or **SEE Electrical/CADdy++** then it is easy to export and to import into **Weidmüller's M-Print® PRO**.
M-Print® PRO is a software application to design and print **Weidmüller** markers and tags. Labels are printed by using the **Weidmüller's PrintJet II**. The **PrintJet II** prints all types of **Weidmüller** MultiCards for terminals, wires and devices. The complete system allows significant time savings when preparing and installing markers and tags.

About the respective products :

SEE Electrical Expert and SEE Electrical/CADdy++ constitutes the bulk of the IGE+XAO packages dedicated to high and medium needs. They include advanced functionalities such as enhanced terminal blocks management, parts lists generation, installation's synoptic design, PLC management, etc.

PrintJet PRO -
With its 'PrintJet PRO' Weidmüller offers a completely new style of inkjet printer for printing plastic markers in 'MultiCard' format - simply, efficiently and environmentally friendly.Print type and print quality are crystal clear as well as resistant to environmental influences. A distinguishing feature of this printer is the designed-in quality that ensures continuous use capability. The integrated loader ensures that multiple shift operations are a reliable standard functionality.

M-Print® PRO -
A professional Windows®-based software application used to print and order Weidmüller markers and labels. This software application helps you optimize your marking electrical equipment processes. Its compatibility with a wide range of CAD applications saves you time and costs, since it allows you to design, print and order your marking material effortlessly, professionally and rapidly such as texts, frames, lines, graphics, barcodes, serial numbers and photos. Its clear and concise menus, as well as its permanent print preview, greatly simplifies its usage.

About the partnership :

The IGE+XAO Group and Weidmüller have signed a strategic partnership in order to launch on the market an enhanced productivity and error-free design solution. Both companies have agreed to develop data exchange between WEIDMÜLLER's and IGE+XAO's products. In addition, they will team up worldwide in order to conduct cross-selling and marketing operations. Together, the two companies cover 70 different countries in Europe, America and Asia/Far-East.

About the IGE+XAO Group :

Shaping the Future of the Electrical PLM and CAD

Over 25 years experience
23 locations in 16 countries
Over 350 employees
Over 64,000 licences sold worldwide
Listed on the Stock Exchange since 1997

About Weidmüller :

When good enough just isn't good enough

Weidmüller

The Leading Manufacturer of Components for Electrical Connection Technology.

Founded in 1948
Sales companies and agencies in over 70 countries
Over 2,300 employees
