# About Mitre Oak

Mitre Oak is a family run business based in the heart of Worcestershire. The company prides itself in having real ethics and morals, making Mitre Oak a special company to work with.

Mitre Oak Ltd was founded in 2005 and remain dedicated in continuing to create bespoke designed, high quality traditional oak framed buildings for discerning clients.

Mitre Oak takes pride in the quality of finish and attention to detail that is so often missing in our industry. We hope to add you to our already long list of satisfied customers. A Mitre Oak building will enhance your property and add great practical and aesthetic appeal.

# Garden rooms

Mitre Oak Garden Rooms are semi glazed with a high vaulted ceiling and tiled insulated roof, sometimes referred to as a Sun Room.

Our Garden Rooms maintain a perfect temperature throughout the year making them a welcoming and enjoyable living space all year round. The insulated roof retains the warmth throughout the winter and blocks the heat from the mid-summer skies, protecting the room from the sun's rays. A place to enjoy the changing seasons within the comfort of a relaxing and characterful environment.

All of our Garden Rooms are made from the finest European Oak, renowned for its strength and durability. Together with bi-folding doors and windows, optional exposed rafters, our Garden Rooms are the perfect setting for family and friends to gather and enjoy the al-fresco feeling.

“ We have been extremely pleased with the garden room you put in for us last year and it is much admired...”

Mr & Mrs Smith, Gloucester

“ Delighted to show anybody my beautiful garden room ”

Mr & Mrs Hodges, Worcester

# Orangeries

Mitre Oak Orangeries provide a beautiful solution for a home extension. Individually crafted, our designs will compliment any style of home, whether old or new. An Orangery will add another level of interest and character without obstructing views of the surrounding area, enabling you to enjoy your scenery all year round.

Our Orangeries are constructed from European oak using the time tested system of mortise and tenon joints, oak pegs, curved knee braces and oak rafters. The roof structure is designed to accommodate tiles, slates and a lantern to optimise light and is insulated to comply to building regulations. Our glazing systems have been developed in-house using years of skill and experience to provide the highest quality and reliability.

A Mitre Oak Orangery will flood your living space with light bringing a new energy into your home.

Orangeries

“ We are very pleased with our orangery and can't wait to start using it. ”  
Mr & Mrs Bryant, Worcester

# Garages

Whatever its purpose, Mitre Oak will provide a beautifully designed Garage capable of adapting to the ever changing needs of an outdoor structure; be it for car storage, a workshop or man/woman/teenager cave! We can guarantee that the design and craftsmanship will not only enhance and blend with your home but also add to the overall enjoyment of your living space.

Mitre Oak also design and install two storey Garages giving even more flexibility to their uses, for example, a working space away from the home environment or additional accommodation when needed.

Crafted from European Oak a Mitre Oak Garage can be anything you want it to be whilst complimenting and enhancing your outside space.

“ May I start by saying how pleased I am with the garage that your fitters installed over the past few days. They have been very accommodating, helpful and worked incredibly hard. ”

Mr & Mrs Pugh, Worcester

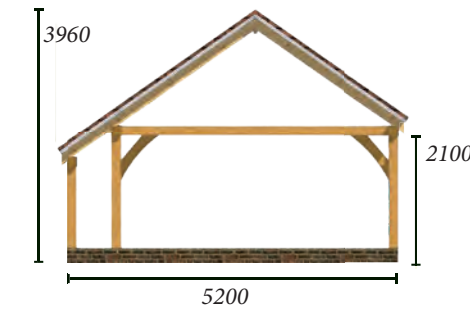

# Garage Kits

In addition to the bespoke Oak Framed Garages we supply, we also offer 'kit' garages (supply only). Mitre Oak produce 6 ranges covering 2 and 3 bay single storey also 2 and 3 bay with room over options. Each range is available in 6 variations. All of our kits are made to order and therefore any minor modifications not already catered for can easily be accommodated

Our kits are initially assembled in house to ensure ease of installation then dismantled and shipped.

We have designed our European Oak Frame kits in a way to provide a straightforward installation which can be carried out by a DIY enthusiast or local tradesperson.

# Offices and Garden Structures

A Mitre Oak Home Office / Studio will provide the versatility to create that perfect multi purpose room in your garden. The extra space can be used for a home office, keeping the work life and home life in balance, hobbies, games room or an elderly relative in need of family support whilst still retaining a degree of independence. Alternatively, just use as a quiet relaxing space away from the home!

Mitre Oak is a family run business with years of experience in the design and build of home offices using traditional European solid natural oak. We take pride in our craft and engage with each customer to fulfil their highest expectations.

Mitre Oak will design the right solution for you and provide an idyllic space in your garden.

## Bi-fold Doors and Porches

Mitre Oak create beautiful and individual traditional Bi Fold Doors made from kiln dried oak. We are a family run business formed by generations of craftsmen, carpenters and joiners. At Mitre Oak we truly believe that our products are unique in terms of real quality, structural integrity and finish. We will design the right solution for you. A Mitre Oak set of Bi Fold Doors are handcrafted and made to last

Mitre Oak can produce the Porch you have dreamt of, be it a traditional canopy or a completely enclosed design. A well designed Porch will welcome visitors to your door and provide that all important kerb appeal.

A Mitre Oak Porch is designed and crafted with skill from European Oak and tiled to compliment your existing home. An enclosed Mitre Oak Porch will become a valuable extra space and provide an instant sheltered welcome to your guests.

# What next?

- STEP ONE**    **CALL US**  
01905 828139 today to book a visit from one of our experienced design consultants.
- STEP TWO**    **SPEAK TO YOUR DESIGNER**  
A designer will call you to make an appointment at your property. He will meet you at an agreed time and survey the site and talk through your requirements.
- STEP THREE**    **DRAWING**  
Our designer will go back and draw up a scheme for you to look at.
- STEP FOUR**    **SECOND APPOINTMENT**  
Once the drawing is ready, the designer will invite you to attend the office to view your plans, quotation and concept drawings.
- STEP FIVE**    **PLANNING APPLICATION**  
If you are happy with the plans and quotation, we will forward the designs to our planning team who in turn will submit your planning application on your behalf to your local authority
- STEP SIX**    **DREAMS COME TRUE**  
Once planning has been approved your dream oak frame will start to become a reality.
