

TENTERDEN BUILDING & RESTORATION
EXTENSIONS

WHY BUY A NEW HOUSE WHEN AN EXTENSION CAN MEET YOUR NEEDS?

BEFORE: A dilapidated, overgrown building (below). AFTER: An extension and sympathetic renovation has breathed new life into this building to provide an exceptional home (above).

Need a playroom for the kids, an extra bedroom, en-suite bathroom or even a bigger kitchen?

Then an extension is the cost-effective solution that gives you get exactly what

you want. You will also be adding value to your home.

Planning law has been relaxed recently to accommodate new types of extensions. Changes in permitted development mean that some extensions can now be built without **full** planning permission.

At TB&R we have years of experience in the way that space can be effectively used to maximise potential and we can show you many examples of what we've done – both in period properties and modern ones. We can even provide a full design and build service, or work with existing plans.

Most importantly, we work with you and your budget.

"Martin, thanks so much again for the hassle free experience. Your ideas for the extension have made a fantastic difference to our property and with minimal disruption to our family life. Everyone has commented on what a wonderful job it is - I'm certain you will be hearing from our friends in the future."

Mr & Mrs Jones - Lenham, Kent

"I want to thank you for an excellent job, you built our extension with minimum disruption to our family life, on time and on budget too."

Mr & Mrs A Minshall - Paddock Wood, Kent
