Hommage

Inspired by the early 20th century, HOMMAGE introduces the style of a grand era into the bathroom. Typical features are the stepped relief on all ceramic components and the almost austere form of the washbasins. The striking furniture in authentic walnut look with profiled Carrara marble complements the ceramics to perfection.

La Belle

Elegance is more than just beauty: it is also the portrayal of timeless sensuality. A delicate, sweeping movement, décor ornaments and floral forms: The unique LA BELLE collection echoes the design of the Romantic period and puts it into an atmospheric context. The sensuous details are more than just stylistic elements – their harmonious interaction forms the soul of the collection and creates an extraordinarily impressive design.

La Belle

The freestanding bath LA BELLE made of the exclusive material Quaryl® has won the renowned Red Dot Design Award 2010.

As a reinterpretation of the sensuous Romantic period, the freestanding LA BELLE bath translates classical forms into a new design: delicate lines and a gentle sweeping movement set the scene for warm harmony and fine elegance – either as an individual piece or as part of the matching sanitaryware and furniture collection.

Memento

The minimalist approach. It does not take courage to do without, only insight in order to recognize the excess. That's why MEMENTO strips both design and features down to essentials. The result: this minimalist approach achieves maximum results in the form of a collection that exudes a perfect sense of calm. MEMENTO focuses on the strength of clear lines. The bathroom now features a sleek design and straight contours, providing the necessary scope for real individuality. The bathroom collection is supplemented by its own furniture programme with a high quality mix of materials, including dark glass and the new Bright Oak furniture surface.
