

Meridian Web

This web based portal eliminates the use of telephone, fax and email to make bookings, access transport information and produce statistics and reports.

Mission Critical Software

Delivering software solutions which, through our customers, make a **positive difference** to people's lives.

Access Meridian Web via the internet or use a tablet or iPad to make, amend or cancel client journey requirements.

This eliminates the use of telephone, fax and email bookings, minimises abortive journeys and helps you to maximise your resources. Users can access key stats, reports and dashboard performance displays. This secure portal can also be accessed by your clients who can have their own user profile which means they are always up to date.

Increase efficiency and excellence:

- Remote users are automatically linked to specific contracts
- Reduce the time spent on control room queries by providing web based information
- Eligibility for transport rules applied at the point of booking
- Demonstrate your excellence by easily sharing KPI info externally

Cost savings:

- Reduce the number of staff needed to collect transport requests
- Provide secure access to your clients to keep them up to date without taking up your staff's time
- Tighten up your transport plan by minimising abortive journeys and waiting time
- Intuitive and easy to use – no formal training required with reduced deployment costs

Easy to use

- Simple user interface both intuitive and easy to navigate
- Online Help and User Guide

Secure:

- SSL 256 bit certificate encryption of all data transmissions
- Secure user logon and access management
- Access to client data configured by user profile (complies with Caldicott and NHS PID data rules)
- Microsoft Internet Explorer compliant

At a glance...

Complete visibility of real time journey data at all times

Total Access

to client data configured to user profile

Easy to use

intuitive with additional online help and a user guide

No downtime

always available via the web portal

Quick and easy to deploy
Increase efficiency instantly

We selected 3tc Software because we wanted an end to end solution from one provider who can integrate this across all our other systems. We now see them as an integral partner in the future growth and development of our company.
