

VOLTAGE DIPS (SAGS OR BROWNOUTS)

SUSTAINED OVER-VOLTAGES

POWER SURGES/SPIKES
(LIGHTNING STRIKES, LOAD SWITCHING,
STATIC DISCHARGE)

BLACKOUTS

ELECTROMAGNETIC AND RADIO
FREQUENCY INTERFERENCES

THE ENHANCED PROTECTION AND BETTER
DIAGNOSTICS OFFERED BY OUR SURGE
PROTECTORS ENABLE BUSINESSES TO:

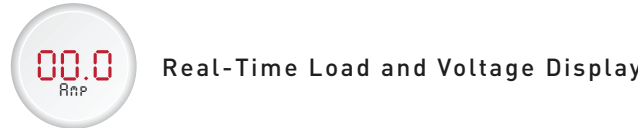

- Improve reliability and increase equipment operating life
- Reduce returns and "no problem found" service calls
- Enhance operations and reduce business downtime

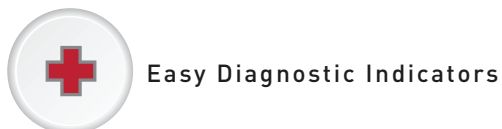

Most businesses experience up to 2,000 surges a year — an average of 6 per day¹. Varying from a few hundred volts to several thousand volts, these destructive power disturbances are one of the most common causes of office equipment malfunction and failure.²

Five-Stage X3 MOV Patented Technology

Real-Time Load and Voltage Display

Easy Diagnostic Indicators

Full Network Protection

MXPOWER

SURGE PROTECTION & POWER FILTRATION

INSPIRING TRUST

Memory Experts International Inc. is a dominant global provider of electronics solutions for the office equipment industry. Continually evolving and enhancing our product line to meet the specialized needs of our clients, our reputation has been forged on our outstanding ability to assess and anticipate industry needs.

Warranty

- Limited lifetime device warranty
- Connected equipment protection limited lifetime warranty.
- Please refer to actual warranty documentation for full details on: www.memoryexpertsinc.com/MXPOWER/Warranty

MXPOWER™

Contact us today and we would be pleased to provide you with solutions to meet your needs.

ENHANCED PROTECTION
FOR YOUR OFFICE EQUIPMENT

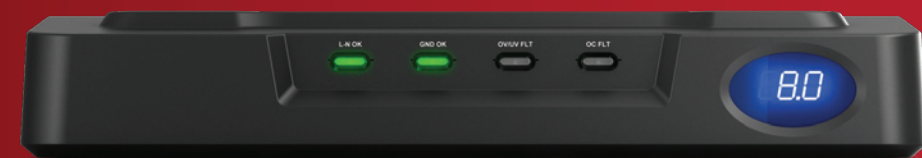

120 V, 208 V/240 V - 15 A, 20 A and 30 A Surge Protectors

SURGE PROTECTION & POWER FILTRATION

YOUR TRUSTED OFFICE EQUIPMENT PARTNER

As a global supplier and trusted partner of major OEMs, MX Power is proud to present its complete line of surge protection products. You can rely on our solutions to provide maximum protection against power disruptions and prevent the degradation and destruction of your valuable electronics components.

WE

- provide solutions to the office equipment industry.
- understand your challenges and what's at stake.
- deliver the value you expect in products.
- are your trusted partner.

MORE THAN A PROMISE. IT'S OUR COMMITMENT TO YOU!

SUPERIOR 120 V & 208 V/240 V SURGE PROTECTORS

By offering quality you can trust, our clients know they can count on our products when it comes to reliability. Available in 120 V - 15 A & 20 A and 208/240 V - 15 A, 20 A & 30 A, MXPOWER Surge Protectors are ideal to protect your valuable office equipment.

1 Easy Diagnostic Indicators

- Indicates if the protection is in effect
- Indicates if the outlet is properly wired and grounded.
- Indicates if the input voltage is outside the safe limits.
- Indicates if an over-current event occurred.

2 Real-Time Load and Voltage Display

- Provides overload warning to prevent power interruptions
- Indicates the line voltage and the combined current consumption of all connected equipment.

3 Symmetrical High-Performance EMI/RFI Filtering

- Suppresses noise to improve operating performance

4 X3 MOV Patented Technology

- Protect against extreme surges and spikes
- Unique square shaped X3 MOV provides 27% more capacity than regular MOV
- Parallel X3 MOV enhances the lifespan of the MOVs and equipment

Ceramic Casing

- Prevents fire and electrical hazards
- Provides higher temperature resistance and faster heat dissipation than regular MOV

Dual Thermal Fuse Protection

- Provides extra security and protection

5 Network and Tel/Fax Protection

- Protects against surges
- Ensures maximum signal consistency and reliable connections
- Protects from electromagnetic and radio-frequency interferences

6 Smart Controller

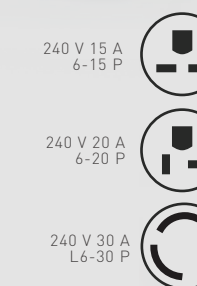

- Measures in real time the current and voltage
- Provides load and short-circuit protection
- Provides over and under-voltage protection
- Extends the lifespan of MOVs
- Protects against ground interrupt

60° Flexible articulation

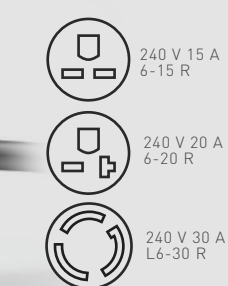

120 V 20 A

Multiple Outlet orientation for ease of use

208 V/240 V 15 A & 20 A

COMPACT 120 V 15 A SURGE PROTECTOR

Designed for Small-Scale Digital Equipment

1 Easy Diagnostic Indicators

- Indicates protection is in effect
- Indicates properly wired and grounded outlet

2 Symmetrical High-Performance EMI/RFI Filtering

3 S1/S3 MOV Patented Technology

- Suppresses more energy by heat dissipation with faster rate
- Higher Joule rating than a regular MOV
- Provides better flameproof ability due to its high resistance to extreme temperature material

5 Over Current Circuit Breaker

6 Power On/Off Rocker Switch

4 Network and Tel/Fax Protection

7 2 Power Outlets with different orientation
