01 IDEA

The new philosophy of building Clever Frame® stands

Because the world doesn't just end on straight lines and right angles we boldly step into the area of soft, organic lines. From now on Clever Frame® gives you tens and hundreds of new, so far impossible, opportunities. With our new, special curved frame your set of frames will receive a completely new character.

The frame with semicircular shape allows for many new arrangements of your stand. Thanks to it you can abandon corner profiles and adjust your stand to the available space in an even better way. See for yourself how much can be done with such a small change.

The way to use and connect the curved frame is exactly the same as with all other frames in our system.
