

# Payment Solutions

Simple. Transparent. Fair.

PAR Payment Services Solutions is our merchant service offering that provides your restaurant to easily and securely process card payments with straightforward and transparent pricing models.

We've learned a thing or two throughout our **40+ years** in business as a public company, and PAR Payment Solutions is designed to help your business thrive.

**PAR Payment Solutions** is the merchant service that you'll find trust in, which is why it's a choice for restaurants – Use it alone or bundle with our entire ecosystem.

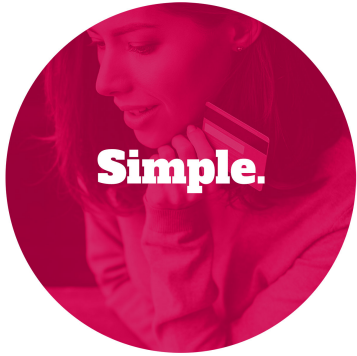

## PAR Payment Solutions includes PAR Pay & PAR Payment Services:

### par | Payment Services

PAR's merchant services offering, enabling restaurants to **securely accept and process card payments.**

### par | Pay

PAR's secure EMV payment processing platform for credit, debit, gift cards and other payment tenders.

**Simple.**

## One provider, zero hassle.

Widespread payment support that works with Apple Pay, Google Pay, Samsung Pay, and PayPal.

Reduce friction with your current providers and bundle PAR Pay & PAR Payment Services to experience the ease of one provider.

When combined, our Customer Service Team is a one-stop-shop.

## Nothing to hide here!

**No gotcha teaser rates.**

A single fixed fee that includes PCI Compliance, monthly statements, batches, fraud and chargeback monitoring, portal access, same day funding and more.

**Terms & conditions.**

Understand exactly what's included and what's not – with guaranteed rates for the term of agreement.

**Guaranteed swipe rates.**

Your rate will remain the same throughout the entirety of your contract.

**Bundle and save.**

Bundle PAR Pay Payment Solutions with our Brink POS software and EverServ® hardware.

**Secure.**

**Transparent & Fair.**

## Your security. Our priority.

- PA-DSS v3.2 Certified.
- Point-to-Point Encryption (P2PE).
- PCI Certified eliminating a need for expensive third-party encryption programs.

## Real results in real time.

A portal with financial reporting for real-time analytics to your business.

**Intelligent.**
