VISION:

Our vision is the advancement of the Christian faith through prayers, worship, bible study, talks, fellowship and making humanitarian contributions towards the relief of pain and suffering of persons going through hardship and distress.

Our members both young and old are encouraged to be firm believers in Jesus Christ and to play active and constructive roles in their local churches and communities and in the development of the countries of which they are citizens.

OFNC continues to proliferate as collaborative and flexible relations with local churches birth new branches in relatively isolated communities thus bringing that much treasured sense of family. We have vibrant ministries for children, youth, 18 – 30s, women and men, Over 60s all with popular conferences and events. We are of the view that all Nigerian Christians and affiliates should be members of the OFNC. You are therefore welcome to join us as we work towards making everyone an effective agent for change in our community.
