## BLASTING & COATING

## Blasting & Coating Expertise

### About us

---

At CTS we undertake marine protective coating work using highly skilled riding squads and dedicated, latest generation equipment, such as vacuum blast machines, ultra-high-pressure hydro-blasters, slurry blast machines and dehumidifiers.

Our blasting teams are experienced at selecting and using the most suitable blasting method for the job, including air blasting or water blasting with sand, copper slag, garnet or sponge media. We also have certified rope access technicians to carry out work without the need of expensive scaffolding.
